

Chairman's review

I am pleased to present the annual financial statements of Pak-Libya Holding Company (Private) Limited for the year ended 31 December 2020.

The year 2020 was a challenging year globally; no one remained unaffected due to novel corona virus (COVID-19) and related measures to contain the pandemic. The lockdown measure hurt economies around the globe severely, triggering an unsettling fear of global recession. In Pakistan, overall economic scenario initially remained subdued due to high interest rates and insecure capital market investors; macro-level indicators of the economy and changing global landscape proved tough for the business environment.

However, I must say, the Pakistan's government and State Bank have come up with an effective strategy and took unprecedented steps to dampen the impact of COVID-19 and has unveiled rescue and stimulus package with a good balance between providing direct assistance to the vulnerable and protecting industry and businesses.

In these uncertain times, the shareholders remained committed to support the Company and injected additional equity to resolve long outstanding matter of statutory capital requirements. The management of the Company, carefully re-adjusted its position and aligned with the economic and market situations. Resultantly, the year proved good for the Company as it managed to demonstrate the effectiveness of its revised business strategy which navigated turnaround performance in every aspect of operations. Therefore, the Company generated profit after tax of PKR 304.13 million after two consecutive loss making years.

The Company has been regularly revisiting its business processes and continuously evolving regulatory environment and adopting necessary changes in a cost effective manner to ensure compliance with statutory requirements together with attainment of its objectives especially long-term sustainable growth. It has, however, been important for the Board to consider the position of the Company in the markets in which it operates and to ensure that outcome of potential future challenges would be materialised in the manner in which the Board wants them to be transpired. Hence, the Board will keep its work and performance under regular review and will revisit the governance principles to ensure best practices.

I firmly believe that the Company, management and staff will face all challenges with positivity to achieve Company's ultimate objective of creating long-term value for our clients, shareholders, employees and other stakeholders.

I have no doubt that given the continuous dedication and team spirit of our employees as well as the continuous support of our shareholders, Pak Libya shall prosper in the years ahead.

Acknowledgements

I would like to express my sincere gratitude to all the stakeholders for the confidence they continue to repose in the Company. I also want to express my sincere appreciation to the shareholders; LAFICO, MoF and SBP, for their continued support.

Chairman 2 April 2021

Directors' Report

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Pak Libya Holding Company (Private) Limited ("Pak-Libya") along with annual audited financial statements and the auditor's report thereon for the year ended 31 December 2020.

Economic Overview

The history will remember year 2020 due to the events that took place during the year around the globe and their repercussions. The year started with international conflicts and existence of novel corona virus (COVID-19). The virus spread was rapid globally; and it did not take much time to affect our Country as by the end of March 2020, Federal and Provincial governments of Pakistan began imposing lockdowns to safeguard precious human lives, lessen the burden on healthcare system vis-à-vis livelihood of people linked with the economic activities. The lockdowns had negative effects on various sectors of the economy which slowed down overall economic activities. This and other factors like high interest rate and low local demand, caused GDP to post a negative growth of 0.38% for the first time in 68 years. Unemployment rates soared and economy suffered an estimated loss of PKR 3 trillion.

In order to mitigate the crippling effects of pandemic, Government of Pakistan (GoP) came up with a series of measures to support the economy and the hardest hit segments of the population. Broad based economic support programmes, incentives package to construction industry, import of essential food items to check food based inflation and to regulate supply in the local market were undertaken. State Bank of Pakistan (SBP) also chipped in with monetary and fiscal measures and aggressively slashed the discount rate by 625 bps in 3 months to stimulate growth. In order to achieve the objective SBP also launched schemes like Temporary Economic Refinance Facility (TERF), Salaries & Wages Scheme to avoid layoff of workforce and principal deferment & restructuring scheme. Moreover, SBP managed the rupee dollar parity well by encouraging exporters with relaxing conditions in Export Refinance Scheme (EFS) and Long Term Finance Facility (LTFF).

On the positive side due to demand contraction coupled with lower international oil prices, growth in exports and remittances have also played a positive part resultantly current account cumulatively, in the first six months of FY21, remained in surplus at \$1.1 billion compared to a deficit of over \$2 billion during 6MFY20. Pakistan's adequate foreign exchange reserves close to three months import requirement as required by IMF along with debt repayment relief by other international financial institutions have also helped ease pressure on Pak rupee.

The year, overall, was much better for Pakistan Stock Exchange (PSX) with KSE 100 index closing the year at 43,755 points its highest yearend closing index in past four years. The index hit its low in April 2020 at 27,229 points at the peak of pandemic induced lockdown and uncertainties. Gradually with monetary easing and proactive steps of GoP and SBP, the market responded favourably and rallied on expectation of positive corporate earnings and low interest rate scenario.

Corporate Performance

In FY2020, the management after revisiting its business model, asset mix, available resources and capacity building measures, implemented a revised business strategy which was approved by the Board in August 2019. Despite witnessing a challenging year considering volatility in capital market, impact of continuous increase and then sharp decline in interest rates on money market and potential threats to economy due to COVID-19 pandemic, the Company managed to demonstrate the effectiveness of its revised business strategy as the Company after two consecutive loss making years was able to generate profits.

The margins which had shrunk now have improved significantly together with growth in credit and investment portfolios. Gross mark-up income during the year was PKR 3.209 billion compared to PKR 1.929 billion in last year. Resultantly, the Company generated profit before tax of PKR 459.97 million as compared to loss before tax of PKR 276.83 million.

The quality asset mix remained dominant with investments in debt securities due to interest rate scenario and inconsistent performance of the bourse as market remained extremely volatile owing to the economic scenario of the Country due to pandemic and political developments.

During the year, the Company also supported the efforts of GoP/SBP and extended support to customers under various relief schemes amounting to PKR 1,220 million. Management while continuing with cautious stance in building and maintaining high quality advances portfolio, equally appreciates the need to supplement the core business income by capitalising other business opportunities in Capital and Money markets.

Existing and evolving regulatory requirements governing capital, leverage, and liquidity, together with the steps we have taken/need to take to adapt to them, have been critical for the Company in terms of its long-term sustainable growth and to create a safer and more resilient financial system overall.

Each of our business segments contributed to support the management's business strategy despite challenging business environment vis-à-vis operational limitation and pandemic.

A Persistent Effort

Pak-Libya has shown promising results with sustainable revenue stream and a strong Net Interest Income (NII) growth which at one time was really dismal or even negative. This was achieved mainly due to afresh focus on prudent investment and lending principles with collective wisdom; workable business model and aggressive recovery strategy with enhanced decision making processes, serious focus on cost controls, capacity building via emphasis on human capital development and overall positive strategic direction.

The asset base of the Company has increased by 27% reflecting growth in Lending to FIs, Debt Investment and Credit portfolios compared to FY2019. On the assets side, management aims to double the total asset in 5 years having focus on sustainable growth in Loans & Advances being the main driver of growth.

The borrowings have also increased by 30%, with noticeable increase in deposits which increased by 160% in line with strategy. The continued focus is to have stable funding resources including individual deposit mobilisation activity. The objective is to reduce the reliance on repo borrowing and have a leverage ratio ranging between six to ten times.

During the year, the Company has increased its paid up capital against the equity received in tranches from shareholders. Consequently, the paid up capital of the Company has increased from PKR 6.141 billion to PKR 7.871 billion. Furthermore, the Company has also received the remaining final tranche of PKR 135 million from GoP after the yearend while Libyan shareholder had already injected the entire equity. Consequently, the Company has issued remaining shares amounting to PKR 270 million. Upon issuance of remaining shares the paid up capital of the Company has increased to PKR 8.141 billion. The Company's capital free of loss after considering issuance of remaining shares stood at PKR 6.007 billion.

These equity tranches together with successful implementation of revised business strategy, the Company has shown tremendous improvement in its performance and has generated profit before tax of PKR 459.97 million as compared to loss before tax of PKR (276.83) million and PKR (260.64) million in last two consecutive years i.e. FY2019 and FY2018.

Highlights on our business units' performance during the year 2020 is presented hereunder:

Corporate & Investment Banking (CIB)

Considering the core activity of the Company, significant efforts are being made to increase the credit portfolio. The credit portfolio (net of recoveries and provisions) of the CIB has increased from PKR 5.312 billion last year to PKR 6.515 billion. Moreover, the team managed to maintained its debt investment portfolio. However, despite economic disruption due to pandemic, CIB overall portfolio has increased by PKR 884.44 million in relation to relief scheme and measures taken to dampen the impact of COVID-19. The overall performing portfolio yielding a return of 11.05%.

SME & Retail Banking (SME-RB)

The management, considering the potential in SME, has keen interest to penetrate in the sector in terms of diversification and for enhanced earning spread. To supplement the overall credit portfolio, the SME-RB identified specific sub-sectors in SME area and offered various products. During the year, the department was involved in auto and lease financing, business loans against mortgage property and relief schemes introduced by SBP. Considering the pandemic and its impact on economy specially on this segment together with interest rate scenario, management was mindful of potential infection and was selective in taking exposure. The performing portfolio yielding a return of 16.13%.

The management exercised extra caution in selecting clients, for CIB and SME-RB, through stringent risk assessment and pressed hard on rigorous post disbursement monitoring.

Treasury & Fund Management (TFM)

Our TFM department recovered from setback due to holding negative yielding PIB portfolio in prior year. Afterward, TFM carefully selected instruments and managed to build a portfolio yielding positive spread and contributed significantly in current year's profitability of the Company. Moreover, in addition to mobilising resources at competitive rates for business units TFM continued to supplement our core business income through secondary market investments and selected investments in debt instruments, During the year, TFM earned net interest income of PKR 543.39 million and realised capital gain of PKR 425.86 million on its investment portfolios.

Securities Portfolio Munagement (SPM)

Economic and political uncertainty, at domestic and international levels, showing no signs of stable capital market; low trading volumes and current weighted average cost of equity securities portfolio had already impacted the profitability due to impairment and fewer opportunities for capital gains.

During the year, SPM maintained its dividend income of the equity securities portfolio. The management has been continuously reviewing its equity AFS portfolio and making efforts to make the portfolio diversified and dynamic. The impairment charged during the year was of PKR 66.13 million out of which PKR 59.53 million has reversed due to disposal of related shares.

Our SPM department on the basis of our overall risk appetite and resources available posted returns of around 5.85% despite restricted prudential limits due to minimum capital requirement (MCR) shortfall.

Back Offices Support (Risk Control Functions)

During pandemic with severe mobility restrictions, Risk Control Functions have performed their role brilliantly and ensured smooth operations of the Company with limited resources and lean staff structure. The cross functional teams provided end-to-end support to conclude the activities. The challenge was unique therefore non-traditional solutions were devised specially work from home experience was completely new, and successful, to cater the once in a life time scenario. The coordinated efforts achieved business objectives while mitigated operational risks, continuity of business activities under an efficient business continuity plan.

A brief summary of the financial results and financial position is as follows:

	2020	2019
	PKR in t	thousands
Year-end balances:		
Total assets	37,010,459	29,097,857
Total liabilities	31,047,398	23,844,340
Net assets	5,963,061	5,253,517
Shareholders' equity (net):		
Share capital	7,871,780	6,141,780
Reserves	372,477	311,650
(Deficit)/Surplus on revaluation of assets – net of tax	(281,624)	(36,336)
Accumulated loss	(2,134,572)	(2,363,577)
Advance against shares subscription	135,000	1,200,000
Total	5,963,061	5,253,517
For the year:		
Profit/(Loss) before taxation	459,970	(276,827)
Profit/(Loss) after taxation	304,135	(303,713)
Earnings/(Loss) per share – PKR	443.23	(494.50)

The Company had transferred an amount equal to 20% of profit after taxation to statutory reserves as per the applicable legal requirements.

After addressing the challenge of keeping Company's operations afloat and fulfilment of MCR, the main focus was to somehow make use of KEL project work either by deploying those assets into economic use or exit via an outright sale. The management of the Company after critically evaluating its options finalised the terms of restructuring deal for the disposal of KEL assets (non-banking assets) with a specialised engineering firm.

In March 2020, Pak-Libya signed the term sheet with its business partner and after finalising legal documentation both the parties signed relevant agreements on 30th June 2020. Under the arrangement, both business partners agreed to enter into a business venture whereby the assets of KEL would be used for setting up of captive power plants to be used for industrial units through power purchase agreements on 'Build Own Operate' or 'Build Own Operate Transfer' basis against total consideration of PKR 1.2 billion (and dividend) which will be paid from the power plant cash flows. In this regard, Pak-Libya has disposed of its major shareholding in its wholly owned subsidiary Kamoke Powergen (Pvt) Limited (KPL) and transferred 80% of its shares together with management control of KPL to its business partner. The relevant formalities in terms of change of management has been completed in December 2020.

Consequently, the KEL transaction has been prudently identified, professionally structured and amicably closed. It is extremely important to point out the fact that deploying these unutilized assets into economic use is certainly a win-win scenario for the country, its economy and the companies involved though it's just a small contribution in the system.

In view of the minimum capital requirement (MCR) shortfall faced by the Company, at yearend, no amount could be considered for distribution of dividends (bonus or cash) to the shareholders. We are, however, confident that once the MCR requirement is completed, the Company will earn sufficient profits to enable dividend distributions to its shareholders.

The Pakistan Credit Rating Agency (PACRA) maintained its credit ratings from the previous year for Pak Libya in the year 2020, however, as a result of persistent efforts and commitment to focus on core issues, the future outlook of the Company has upgraded from 'Negative' to 'Stable' as follows:

Short term A1+

Long term AA-

These ratings denote a low expectation of credit risk emanating from a <u>very strong capacity for timely</u> payment of financial commitments.

Statement on Corporate and Financial Reporting Framework

- The financial statements prepared by the management, present fairly its state of affairs, the result
 of its operations, cash flows, and changes in equity.
- Proper books of account of the Company have been maintained.
- Appropriate accounting policies have been consistently applied in the preparation of financial statements and accounting estimates are based on reasonable and prudent judgement. Further, changes in the accounting policies are duly disclosed in the financial statements.
- International Financial Reporting Standards, as applicable in Pakistan for DFIs, have been followed in the preparation of financial statements.
- There are no doubts regarding the Company's ability to continue as a going concern.
- Tax contingencies have been disclosed in the financial statements.
- There has been no material departure from the best practices of corporate governance.
- The system of internal controls including internal controls over financial reporting is sound in design and has been effectively implemented and monitored.
- Summary of key operational and financial data for the last six years is enclosed.

Corporate Social Responsibility

The Company has always remained active in fulfilling its social responsibility and will continue its efforts on this front in future as well. However, currently, we were unable to support certain notable, reputed charitable institution due to shortage of minimum capital requirement and related SBP prudential regulations.

Green Banking Initiative

The Company has adopted a Green Banking policy wherein Pak-Libya aims to obtain relevant documents, for loaning to new projects, that have been specified in the Environment Protection Act whilst for existing loans, management will evaluate adherence to the Environment Quality Standards established by the environment agencies. In an event, where the borrower is not compliant to any of the set standards, the Company will encourage and assist them in coming up with better environment protection measures.

The management has nominated a Green Banking Officer and is in the process of establishing a Green Banking Office to collect and consolidate data/information on green banking activities and initiatives for its onward reporting to the senior management/Board and SBP, as and when such data/information is sought.

Consumer Grievances Handling Mechanism

The Company is committed to providing its customers quality services and highest level of satisfaction therefore has adopted a formal policy and established process to deal with consumer grievances. The management through complaint handling mechanism, ensures that complaints are resolved in a timely manner and recurrence of complaints is prevented where possible.

All complaints get handled through Centralised Complaint Management System under the supervision of Head of HRA and SVP (RMRC).

Board Composition

During the year, no vacancy existed on the Board.

Performance Evaluation of the Board

The Company engages Pakistan Institute of Corporate Governance (PICG), a specialised institute, for the performance evaluation of the Board members. The external evaluator gives an independent view and perspective about overall performance of Board. The Chairman of the Board communicates the results internally to all board members.

Risk Management Framework

The Risk Management Structure of the Company is overseen by the Board's Risk Management Committee (BRMC) which has further entrusted the task to the Management's Risk Management Committee (MRMC) to carry out the assessment and supervision/monitoring of all types of risks, the Company is exposed to and work on a strategy and action plan to mitigate the risks on the basis of Company's overall risk appetite.

The Credit Policy and Credit Manuals for the Company are updated and modified based on changing risk and regulatory environment and are being implemented for a better and comprehensive evaluation, on a continuous basis, of credit exposure that each client brings in. The Obligor Risk Rating model and Facility Risk Rating model emphasising upon internal ratings model covering objective aspects are used for respective evaluation of risks. Consequently, the risk appetite has been further elaborated to include specific limits. Furthermore, the monitoring and reporting mechanism has also been strengthened with an aim to improve the overall credit risk management process.

We believe that a sound and effective Operational Risk Function is critical for uninterrupted workflow of operations round the year. Thus, staying watchful of any contingency that may arise and to ensure continuity of our business operations a BCP site is being maintained. Moreover, an operational risk database is being regularly maintained to comply with the regulatory requirement as well as to keep a regular check on the incidents that need to be addressed on a prompt basis and also to evaluate the effective functioning of the operational risk mechanism.

We also have in place a Company-wide documented business continuity plan at each business unit with a view to manage risk emanating from operational activities. During the year, we continued to strengthen our Internal Controls and hence brought about various improvements in our integrated IT system keeping in view the best practices and to cater our reporting requirements. Furthermore, our Compliance, Risk Management and overall Internal Control structure remained robust and the implementation of SBP guidelines and framework on Internal Control over Financial Reporting (ICFR) remained steadfast.

The market risk function continues to monitor market related risks. Stress Testing analyses are used to assess impact of key potential risks on existing exposures. The market risk policy with elaborated interest rate risk is in place. Also, the guidelines on monitoring and reporting of interest rate risks have been enhanced in the overall market risk management framework.

The Company has also a Liquidity Risk Management Policy, in addition to the Liquidity Management Policy, in place. The Liquidity Risk Management Manual included detailed and comprehensive processes to manage various liquidity aspects and Contingency Funding Plan.

The Company continues to maintain its CAR well above prescribed regulatory thresholds throughout the year based on applicable Basel II and Basel III requirements. Internal Capital Adequacy Assessment Process (ICAAP) framework has been reviewed in view of the guidelines issued by SBP and implemented to make the process more robust and effective. Moreover, efforts are underway to comply with regulatory Minimum Capital Requirement (MCR) of PKR 6 billion. The MoF and LAFICO (both the shareholders) have injected additional equity to increase the loss absorption

capacity, smooth operations and long-term sustainable growth of the Company. In this regard, the authorised capital of the Company has increased to PKR 10 billion.

Growth in the Company's portfolio is being managed effectively to avoid risk concentration through established limits in every important/relevant area. Amendments in the limits had/have been duly made in line with revision in the Prudential Regulations, if any. The Company aims at business growth by assuming direct exposure or through risk participation. Risk Management function proactively contributes for taking exposure within the defined risk parameters.

The Company continued to strengthen compliance program during the year with appropriate KYC/AML controls in place and ensuring regulatory compliance and awareness through the forum of Compliance Committee of the Management. All policies, procedures and products are reviewed from compliance perspective along with maintaining relationship with regulatory authorities.

The Company's overall Risk Management Framework is robust. The Company continues to put in efforts to further improve and strengthen the risk management and internal control framework of the Company.

Statement on Internal Controls

A sound system of internal controls is in place to achieve organisational objectives and continuous improvement is made therein in light of the changing requirements of the business and operating environment. Management has evaluated the internal controls, including internal controls over financial reporting as effective and the Board endorses the same evaluation. The State Bank of Pakistan, in view of the strengthened control environment has granted exemption to the Company from annual submission of external auditor's long form report on internal control over financial reporting (ICFR).

Comments of Auditors in their Audit Report

The external auditors have expressed a qualified opinion on the investment in Summit Banks' (counter party) TFC's amounting to PKR 398.58 million, as referred in note 8.2.6 to the accompanying financial statements as they were unable to obtain sufficient appropriate audit evidence to determine the recoverability of these TFCs.

Furthermore, they have added following emphasis of matter paragraphs in their audit report. They have drawn attention to:

Company Outlook

The economic disruption resulting from the ongoing pandemic caused great uncertainties for businesses around the Country. Despite such uncertainties, the Company has shown great resilience by achieving its certain strategic objectives.

After the resolution of long outstanding critical issues of MCR and disposal of KEL assets, we hold a firm stance towards our future business strategy and outlook. Establishing a continuous income stream through economic use of Power Plant (non-banking assets) and related disposal, deposit mobilisation as stable funding source and determination to increase the advances portfolio, being the core activity, we understand and believe that the Company will be able to achieve is target of sustainable profitability and long term growth.

In terms of recoverability of investment in TFCs amounting to PKR 398.58 million, the management has evaluated overall situation vis-à-vis issuer Bank's intention and ability to pay; accordingly, concluded that both the elements exist as it acknowledges the debt and there are no restrictions on its operations while the payment is delayed due to its minimum capital requirements. In this regard, SBP has given its final approval for the period till 27 October 2020 however the issuer Bank has requested a separate in-principal approval (similar to prior year) for the period covering till 27 October 2021. Therefore, management has not provided any impairment on the said TFCs on subjective basis due to the recent developments & negotiations, and has been following up for the amicable resolution of the matter and complete recovery.

Moreover, new long-term credit lines are being negotiated to fill in the liquidity gaps and to ensure contingency funding planning. Therefore, the Company has revisited its business model, asset mix and available resources, and has taken various measures to tighten the controls over operating cost to ensure favourable impact on profitability and compliance with statutory requirements together with attainment of long-term sustainable growth.

The management is focusing on all possible avenues for profitable operations of the Company including recovery efforts for troubled and non-performing assets which are a source of potential earnings.

In view of the efforts being made by the management we are optimistic about our Company's future growth, profitability and sustainability.

Acknowledgements

On behalf of the Board and the Management, we would like to express our sincere gratitude to the customers and all stakeholders of Pak-Libya for their confidence that they continue to repose in the Company. We would also like to express our appreciation to the shareholders; LAFICO and SBP, including MoF, for their continued support and guidance and to the employees of the Company for their steadfast trust and loyalty.

معا شى جائزه

سال 2020 کو تاریخ ، اس سال کے دوران ، عالمی طور پر ہونے والے واقعات اور ان کے سبب ہونے والے غیر متوقع نتائج کی وجہ سے یاد رکھے گی۔ سال کا آغاز بین الاقو امی تنازعات اور انوکھے کووڈ (COVID-19) وبا کی موجودگی سے ہوا۔ وبا کا پھیلاؤ عالمی طور پر انتہائی تیز رفتار اور اس نے ہمارے ملک میں پہنچنے میں زیادہ وقت نہیں لیا، جس کے لیے مارچ 2020 کے اختتام تک ،پاکستان کی وفاقی اور صوبائی حکومتوں نے قیمتی جانوں کے تحفظ کے لیے بندشیں (lockdowns) لگانا شروع کیں تاکہ علاج معالجوں کے نظام پر بوجھ کو کم کیا جا سکے اس کے مقابلے میں عوام الناس کے روزگار کا براہ راست تعلق معاشی سرگرمیوں کی بحالی سے ہے۔ بندشوں (lockdowns) کے نتیجے میں معیشت کے متعدد شعبہ جات پر منفی اثرات پڑے جس کی وجہ سے مجموعی معاشی سرگرمیاں سست روی کا شکار ہوئیں۔ اس عنصر کے ساتھ دیگر عناصر جیسا کہ بلند سودی نرخ کے ساتھ مقامی طلب میں کمی کے سبب مجموعی قومی پیداوار (GDP) نے 68 سالوں میں پہلی مرتبہ 0.38 فیصد منفی نمو کا اندراج کیا ہے۔ بے روزگاری کی شرح میں تیزی سے اضافہ ہوا اور قومی معیشت نے ایک تخمینے کے مطابق 3 کھرب روپے کا نقصان اٹھایا۔

عالمی وبا کے بے بس کر دینے والے اثرات کو کم کرنے کے لیے، حکومت پاکستان نے معیشت کی بحالی اور وباء سے زیادہ متاثرہ معاشی طبقات کی مدد کے لیے مرحلہ وار اقدامات کیے۔ معیشت کی معاونت کے لیے وسیع بنیادوں پر پروگرامز، تعمیراتی صنعت کے لیے رعائتی پیکیج، بنیادی غذائی اشیاء کی درآمد کرنا تاکہ غذائی افراط زر کو قابو کیا جائے اور مقامی منڈی میں غذائی اشیاء کی باقاعدہ فراہمی جیسے اقدامات کیے۔ بینک دولت پاکستان (SBP) نے بھی معاشی نمو کی ترغیب کے لیے مالیاتی اور اقتصادی اقدامات لیے اور جارحانہ طور پر ، تین ماہ میں ، ڈسکاؤنٹ ریٹ میں 625 بیسس پوائنٹس کی کمی کی ۔ مقاصد حاصل کرنے کے لیے عارضی نو مالکاری (TERF)، ملازمین کی بے روزگار ہونے سے بچاؤ کے لیے تنخواہ اور اجرت کی اسکیم، اور اصل قرضہ کی ادائیگی میں اور تنظیم نو شرائط پر دوبارہ قرضہ کی الجراء کیا۔ علاوہ ازیں، بینک دولت پاکستان (SBP) نے ، برآمد کنندگان کی برآمدات کی نرم شرائط پر دوبارہ قرضہ کی اسکیم (EFS) اور طویل المدت قرضہ فنانس کی سہولت (LTFF) کے ذریعے سے حوصلہ افزائی کرکے روپے۔ ڈالر کا شرح مبادلہ کا بہتر طور پر انتظام کیا۔

طلب کے سکڑاؤ کے ساتھ بین الالقوامی طور پر تیل کی قیمتوں میں کمی، برآمدات میں اضافہ اور غیر ملکی زر مبادلہ کی تریسلات نے مثبت کردار ادا کیا جس کا نتیجہ مالی سال 2021 کے پہلے چھ ماہ میں جاری کھاتے 1.1 ارب امریکی ڈالر سے فاضل (surplus) رہا جبکہ مالی سال 2020 کے پہلے چھ ماہ میں یہی خسارہ 2 ارب امریکی ڈالر کا تھا۔

پاکستان کے مناسب غیر ملکی زر مبادلہ کے ذخائر، جو تین ماہ کی درآمدات کی ضرورت کے لیے کافی سمجھا گیا، جیسا کہIMF کا بھی تقاضہ تھا، اور ساتھ ساتھ دیگر بین الاقو امی مالیاتی اداروں کی جانب قرضوں کی واپس ادائیگی میں نرمی کی سہولت نے بھی پاکستان روپے پر دباؤ کم کرنے میں مدد دی۔

مجموعی طور پر یہ سال ، پاکستان اسٹاک ایکسچینج (PSX) کے لیے بہتر رہا جس میں KSE نے سال کااختتام مجموعی طور پر یہ سال ، پاکستان اسٹاک ایکسچینج (PSX) کے لیے کی 43,755 پوائنٹس پر کیا، جو گذشتہ چار سالوں میں انڈیکس کا سال کا بلند ترین اختتام ہے۔ عالمی وبا ء کے لیے کی جانے والی بندشوں (lockdowns) کے نتیجے اور غیر یقینی صورتحال میں اپریل 2020 میں انڈیکس سال کے کم ترین 27,229 پوائنٹس پر بند ہوا۔ حکومت پاکستان اور بینک دولت پاکستان (SBP) کی جانب سے بتدریج آسانی فراہم کرنے کے پیشگی اقدامات کو اسٹاک مارکیٹ نے پسند کیا اور کم سودی نرخ کے پس منظر میں مثبت اداراتی کمائی کی توقع پر تیزی دکھائی۔

اداراتی کارکردگی

مالی سال 2020 میں انتظامیہ نے اپنے کاروباری ماڈل، اثاثہ جات کا آمیزہ (asset mix)، دستیاب وسائل اور استعداد میں اضافے کے اقدامات پر نظر ثانی کے بعد ، ترمیم شدہ کاروباری حکمت عملی کو نافذ کر دیا ہے جسے بورڈ نے اگست 2019 میں منظور کیا تھا۔ مسائل سے بھر پور سال دیکھنے کے باوجود سرمایہ منڈی میں اتار چڑھاؤ (volatility)، شرح سود میں مسلسل اضافہ اور پھر تیزی سے کمی کے اثرات مالیاتی منڈی پر اور کووڈ -19 کی وجہ سے معیشت کو ممکنہ خطرے کے باوجود ، کمپنی نے اپنی ترمیم شدہ کاروباری حکمت عملی کا مؤثر طور پر مظاہرہ کیا کیونکہ کمپنی مسلسل دو سال نقصان کے بعد منافع حاصل کرنے کے قابل ہو گئی۔

لاگت اور قیمت فروخت کا فرق (margins) جو سکڑ چکا تھا ان میں خاصی بہتری کے ساتھ قرضہ کی فراہمی اور سرمایہ کاری پورٹ فولیوز (portfolios) میں اضافہ ہوا ۔ گذشتہ مالی سال کی 1.929 ارب روپے کی مجموعی مارک اپ (mark-up) آمدنی کے مقابلے میں زیر جائزہ مالی سال کے دوران اس کی مالیت 3.209 ارب روپے تھی۔ اس کا نتیجہ گذشتہ سال کے 276.83 ملین روپے کے نقصان قبل از محصول کے مقابلے میں زیر جائزہ سال کے دوران 459.97 ملین روپے کا منافع قبل از محصول میں تبدیل ہو گیا۔

موافق سودی نرخ اور بازار حصص ناموافق کارکردگی کی وجہ سے اثاثہ جات کے آمیزہ میں قرضی (debt) تمسکات نمایاں تھے ۔ سیاسی پیشرفت اور عالمی وباء کے پس منظر میں ملکی معاشی صورتحال کی وجہ سے بازار حصص کی کارکردگی غیر مستحکم رہی۔

مالی سال کے دوران ، کمپنی نے حکومت پاکستان/بینک دولت پاکستان کی کوششوں کی بھی معاونت کرتے ہوئے ان کی متعدد اعانت (relief) کی اسکیموں کے تحت اپنے گاہکوں کی 1,220 میں روپے کی معاونت فراہم کی۔ انتظامیہ، اعلیٰ معیار کے ایڈوانسز پورٹ فولیو کی تعمیر اور اسے بر قرار رکھنے کے لیے محتاط موقف جاری رکھنے کے ساتھ ساتھ اس بات کی ضرورت کو بھی سراہتی ہے کہ بنیادی کاروبار کی آمدنی میں اضافے کے لیے کیپیٹل اور زر منڈیوں میں دیگر کاروباری مواقعوں سے فائدہ اٹھایا جائے۔

موجودہ اور ارتقائی ضوابطی ضروریات جو کیپیٹل، لیوریج (leverage) اور سیالیت (liquidity) کو منظم کرتی ہے کے ساتھ ہم جو اقدامات اٹھا چکے ہیں/ یا جن اقدامات کو اختیار کرنا ضروری ہے ، وہ کمپنی کی تسلسل سے جاری رہنے والی طویل المدتی نمو اور مجموعی طور پر ایک محفوظ اور لچکدار مالیاتی نظام تشکیل کرنے کے اہم اجزاء ہیں۔

عملی (operational) پابندیوں اور عالمی وباء سے پیدا ہونے والے مشکل کاروباری ماحول کے باوجود ہمارے ہر کاروباری اکائی نے انتظامیہ کی کاروبار کی حکمت عملی کی معاونت میں حصہ ڈالا۔

ایک مستقل کوشش

پاک لیبیا نے، تسلسل سے مالگذاری (revenue) کی روانی اور مستحکم خالص سودی آمدنی (Income پاک لیبیا نے، تسلسل سے مالگذاری (revenue) کی روانی اور مستحکم خالص سودی آمدنی (Income ایس اصلافہ، جو ایک وقت حقیقت میں مایوس کن بلکہ منفی تھا، میں امید افزا نتائج دکھائے ہیں۔ اس کے حصول کی بنیادی وجہ محتاط سرمایہ کاری اور قرضہ کی فراہمی کے اصول کے ساتھ اجتماعی بصیرت پر از سر نو توجہ دینا ؛ عملی کاروبار کا ماڈل اور جارحانہ قرضہ جات کی وصولیابی کی حکمت عملی کے ساتھ مستحکم فیصلہ سازی کا عمل، لاگتوں کو قابو میں میں رکھنے کی سنجیدہ کوششیں، انسانی سرمایہ کی ترقی کے ذریعے سے استعداد کی تعمیر اور مجموعی طور پر مثبت تزویراتی (strategic) سمت کا تعین تھا۔

کمپنی کے اثاثہ جات میں سال 2019 کے مقابلے میں 27 فیصد اضافہ ہو چکا ہے، جو مالیاتی اداروں (FIs) کو قرضہ جات کی فراہمی، قرضی (debt) سرمایہ کاری اور کریڈٹ پورٹ فولیو میں اضافے کو ظاہر کرتا ہے۔ اثاثہ جات کے سلسلے میں۔ کمپنی کا ارادہ ہے کہ تسلسل سے قرضہ جات اور ایڈوانسز (advances)کی فراہمی، جو کہ معاشی

نمو میں اضافے کے بنیادی محرک (driver) ہیں، میں اضافے سے اگلے پانچ سالوں میں اپنے کل اٹاٹہ جات کو دو گنا کر لے۔

کمپنی کی حکمت عملی کے تحت ، ادھار (borrowings) میں 30 فیصد کا اضافہ ہو چکا ہے اور اس کے ساتھ ڈپازٹس میں 160 فیصد کا نمایاں اضافہ ہوا۔ مستحکم فنڈنگ وسائل بشمول انفرادی ڈپازٹ کو محرک کرنے کی تیاری کے سلسلے میں اس پر توجہ جاری رہے گی۔ اس عمل کا مقصد یہ ہے کہ ریپو ادھار (repo borrowing) پر انحصار کم کیا جائے لیوریج (leverage) کے تناسب چھ سے دس گنا کی حد میں رہے۔

سال کے دوران، حصص کنندگان کی جانب سے قسطوں میں ملنے والے ملکیتی سرمایہ (equity) سے کمپنی اپنے ادا شدہ کیپیٹل (paid-up capital) میں اضافہ کر چکی ہے۔ نتیجناً کمپنی کا ادا شدہ کیپیٹل سابقہ 16.141رب روپے سے بڑھ کر 7.871 ارب روپے ہو گیا ہے۔ مزید یہ کہ کمپنی کو سال کے اختتام کے بعد حکومت پاکستان کے جانب بقایا قسط کے 135 ملین روپے وصول ہو چکے ہیں جبکہ لیبیا کے حصص کنندگان کے جانب سے ملکیتی سرمایہ کی مد میں تمام رقم جمع کروائی جا چکی ہے۔ اس عمل کے نتیجے میں کمپنی نے 270 ملین روپے کی مالیت سرمایہ کی مالیت بڑھ کر 18.141ارب روپے ہو چکی ہے۔ اوراء کے بعد کمپنی کا ادا شدہ سرمایہ کی مالیت بڑھ کر 18.141ارب روپے ہو چکی ہے۔ اوراء کے اجراء ، کمپنی کا کیپیٹل کی مالیت ، بنا کسی نقصان کے، مروپے ہو چکی ہے۔ بعد از بقایا حصص کے اجراء ، کمپنی کا کیپیٹل کی مالیت ، بنا کسی نقصان کے،

ان قسط وار ملکیتی سرمایہ کے ساتھ کاروبار کی ترمیم شدہ حکمت عملی کے کامیاب نفاذ سے کمپنی نے کارکردگی میں غیر معمولی بہتری دکھائی ہے اور گذشتہ دو سالوں میں یعنی 2019 اور 2018 کے باالترتیب لگاتار نقصان قبل محصول (276.83) ملین روپے اور (260.64) ملین روپے کے مقابلے میں زیر جائزہ سال میں459.97 ملین روپے کا منافع قبل از محصول حاصل کیا۔

سال 2020 کے دوران ہمارے کاروباری اکائیوں کی کارکردگی کی جہلکیاں درج ذیل ہیں

اداراتی اور سرمایه کاری بینکاری (CIB)

کمپنی کی بنیادی کاروباری سرگرمیوں کو مد نظر رکھتے ہوئے کریڈٹ پورٹ فولیو میں اضافے کے لیے خاصی اہم کوششیں کی جا رہی ہیں۔ CIB کریڈٹ پورٹ فولیو (خالص وصولیابیوں اور مختصات) بڑھ کر 6.515 اربپاکستانی روپے تک پہنچ گیا جو گذشتہ سال 5.312 ارب پاکستانی روپے تھا۔ علاوہ ازیں ۔ سال کے دوران ، ٹیم اپنے قرضہ سرمایہ کاری پورٹ فولیو برقرار رکھنے کا انتظام کر سکی۔ تاہم، عالمی وبا ء کی وجہ سے ہونے والے معاشی خلل کے باوجود CIB کے مجموعی پورٹ فولیو میں 884.44 ملین روپے کا اضافہ ہوا جس کا تعلق حکومتی سہولیا تی اسکیم اور کووڈ-19 لے اثرات کو کم کرنے کے لیے اٹھائے جانے والے اقدامات سے تھا۔ مجموعی کارکردگی دکھانے والا پورٹ فولیو

SME اور ریٹیل بینکاری (SME-RB)

تنووع اور آمدنی کے پھیلاؤ میں زیادہ اضافے کے لیے انتظامیہ، SME شعبے میں موجود امکانات کی وجہ سے اس شعبے میں داخل ہونے پر غور کر رہی ہے۔ مجموعی پورٹ فولیو کی معاونت کے لیے، SME-RB نے SME کے مخصوص ذیلی شعبہ جات کی شناخت کے بعد ، متعدد مصنوعات پیش کی ہیں۔ سال کے دوران یہ شعبہ، گاڑیوں اور لیز فنانسنگ اور جائیداد کو رہن رکھنے کے عوض قرضہ جات کی فراہمی اور بینک دولت پاکستان(SBP) کی متعارف کردہ رعائتی اسکیموں میں مصروف عمل رہا۔ عالمی وبا ء اور اس کے معیشت پر اثرات ، خاص طور پر، کاروبار کے اس شعبے ، کو مدِنظر رکھنے کے ساتھ سودی نرخ کے پس منظر میں ، انتظامیہ ہوشیار تھی کہ موجودہ حالات اس شعبے کو بھی ممکنہ طور پر متاثر نہ کرے، جس کو دیکھتے ہوئے انتظامیہ ایک فیصلہ کے تحت گاہکوں کے چناؤ میں محتاط رہی۔ مجموعی کارکردگی دکھانے والا پورٹ فولیو 16.13فیصد کا منافع دے رہاہے۔

انتظامیہ نے CIB اور SME-RB کے لیے گاہکوں کے انتخاب کے سلسلے میں سخت خطرہ کے تخمینہ اور قرضہ کی فراہمی کے بعد سخت نگرانی میں اضافی احتیاط کا طریقہ اختیار کیا۔

خزانہ اور فنڈ مینجمنٹ (TFM)

ہمارا خزانہ اور فنڈ مینجمنٹ (TFM) کا شعبہ، گذشتہ سال منفی منافع دینے والی PIB کے رکھے رہنے کے جھٹکے سے باہر نکل آیا ہے۔ خزانہ اور فنڈ مینجمنٹ (TFM)، مالی دستاویزات (instruments) کا انتخاب دھیان سے کیا اور مثبت نتائج دینے والے پورٹ فولیو کی تعمیر کی اور جس نے کمپنی کے زیر جائزہ سال میں منافع بخشی میں خاصہ حصہ ڈالا۔علاوہ ازیں، کاروباری اکائیوں کے لیے مسابقتی نرخوں پر وسائل کو متحرک کرنے کے علاوہ، ہمارے خزانہ اور فنڈ مینجمنٹ (TFM)، نے ثانوی منڈی اور ڈیٹ (debt) کی مالیاتی دستاویزات کے علاوہ، ہمارے خزانہ اور فنڈ مینجمنٹ (TFM)، نے ٹانوی میں صدہ ڈالنا جاری رکھا۔ زیر جائزہ سال کے دوران ، خزانہ اور فنڈ مینجمنٹ (TFM) نے 543.30 ملین روپے کی خالص سودی آمدنی کمائی اور اپنے سرمایہ کاری پورٹ فولیو میں 425.86 ملین روپے کا کیپیٹل اضافہ کیا۔

تمسكات يورث فوليو مينجمنث (SPM)

ملکی اور عالمی سطح پر معاشی اور سیاسی غیر یقینی کی صورتحال کیپیٹل مارکیٹ کے استحکام کے اشارے نہیں دکھا رہا ہے؛ تجارت کا کم حجم، اور ملکیتی تمسکات پورٹ فولیو کی موجودہ ملکیتی سرمائے کے تمسکات پورٹ فولیو (equity securities portfolio) کا وبیٹڈ اوسط (weighted average) لاگت، نا مساعد حالات اور کیپیٹل گین کے گئے چنے مواقعوں کی وجہ سے پہلے ہی منافع بخشی کو متاثر کر چکا تھا۔

سال کے دوران، ملکیتی سرمایہ کے تمسکات پورٹ فولیو (SPM) میں منقسمہ منافع (dividend) کی آمدنی کو برقرار رکھا۔ انتظامیہ، ملکیتی سرمایہ AFS پورٹ فولیو کا مسلسل جائزہ لیتی رہتی ہے اور کوشش کر رہی ہے کہ پورٹ فولیو کو متنوع (diversified) اور متحرک (dynamic) بنایا جائے۔ سال کے دوران خرابی (diversified) خرچہ (0.50, 0.50) ملین روپے تھا جس میں سے متعلقہ حصص کی فروخت سے (0.50, 0.50) ملین روپے واپس ہو چکے ہیں۔

کم سے کم سرمایہ کی پا بندی (MCR) میں کمی کی وجہ سے عائد پابندیوں کے باوجود ہمارے ملکیتی سرمایہ کے تمسکات پورٹ فولیو (SPM) کے شعبے نے مجموعی خطرہ کے لیے رغبت اور دستیاب وسائل بنیاد پر تقریباً 5.85 فیصد کی آمدنی دکھائی۔

پس منظر سے معاونت کرنے والے دفاتر (خطرے کو کنٹرول کرنے والے فنکشنز)

عالمی وبا ء کے دوران نقل و حرکت پر سخت پابندیوں کے ساتھ خطرے کے کنٹرول کرنے کے فنکشنز اپنا کام عمدگی سے سرانجام دیا اور محدود وسائل اور کم عملے کے ساتھ رہتے ہوئے کمپنی کے آپریشن کو یقینی بنایا۔ دوسرے شعبوں کی فعال ٹیموں نے، اول تا آخر ، کاروباری سرگرمیوں کو نتیجہ خیز بنانے میں معاونت فراہم کی۔ ایسی مشکل صورتحال منفرد تھی، اس لیے غیر روایتی حل تیار کئے گئے خاص طور پر زندگی میں ایک دفعہ، گھر سے کام کرنے کا تجربہ جو بالکل نیا تھا اور کامیاب تھا۔ مربوط کوششوں سےکاروبار کے مقاصد حاصل کیے، جبکہ ایک مؤثر کاروبار کے تسلسل کے منصوبے کے تحت آپریشن سے متعلق خطرات کو کم کیا اور کاروباری سرگرمیوں کا تسلسل بھی جاری رکھا۔

مالی سال 2020 میں کمپنی نے منافع بعد از محصو ل کا 20 فیصد کی مالیت کے مساوی رقم دستوری ذخائر میں منتقل کر دیا ہے جو مروجہ قانونی ضروریات کے مطابق ہے۔

کمپنی کے آپریشن کے تسلسل کو جاری رکھنے اور کم سے کم کیپیٹل کی قانونی ضرورت (MCR) جیسے مسائل کو حل کرنے کے بعد اصل مسئلہ کاموکی انرجی لمیٹڈ (KEL) کے استعمال میں لانے کا تھا، یا تو منصوبے کے اثاثہ جات کو استعمال کرکے معاشی استعمال میں لایا جائے یا اس کو فروخت کرکے اس منصوبے سے جان چھڑائی جائے۔

کمپنی کی انتظامیہ نے کافی غور و خوص کے بعد اس کے پاس اس منصوبے کے بارے فیصلہ کیا ہے کہ اس کاموکی انرجی (Energy) لمیٹڈ اثاثہ جات (غیر بینکاری اثاثہ جات) کی فروخت کے لیے سودے کی شرائط و ضوابط کی تیاری کے لیے ماہر انجینیرنگ فرم کو سونپ دیا گیا ہے۔

مارچ 2020 میں پاک۔ لیبیا نے اپنے کاروباری شراکت دار کے ساتھ ایک ٹرم شیٹ (term sheet) پر دستخط کئے اور قانونی دستاویز کاری (documentation) کے بعد 30 جون 2020 کو دونوں فریقین نے متعلقہ معاہدے پر دستخط کئے۔ اس انتظام کے تحت دونوں کاروباری شراکت دار اس بات پر متفق ہوئے کہ کاروباری سودا (business venture) کیا جائے، جس کے تحت دونوں کاروباری شراکت دار اس بات پر متفق ہوئے کہ کاروباری سودا (captive)، توانائی جائے، جس کے تحت معاہدے کی اثاثہ جات پاک لیبیا کے ماتحت، اس کے فائدے کی لیے (captive)، توانائی کا پلانٹس تشکیل دیں گے، جو صنعتی یونٹ کے لیے استعمال ہوگا جس کے معاہدے کی بنیاد توانائی کی خریداری کے معاہدے کے ذریعے " بلڈ -اون- آپریٹ ('Build Own Operate') یا " بلڈ -اون – آپریٹ کی خریداری کے معاہدے کے دریعے " بلڈ عاون – آپریٹ عوض ہوگی جو 1.2 ارب روپے (اور منقسمہ منافع) کے حوض ہوگی جس کی ادائیگی توانائی کے پلانٹ کے کیش فلوز (cash flows) سے ہوگی۔ اس سلسلے میں پاک حوض ہوگی جس کی ادائیگی توانائی کمپنی کاموکی پاور جین (پرائیویٹ) امیٹڈ (KPL) میں اس کے زیادہ تر حصص کو ختم کردیا ہے اور اپنے 80 فیصدحصص، KPL کے انتظامی کنٹرول کے ساتھ، اپنے کاروباری شراکت دار کو منتقل کر چکی ہے۔ انتظامیہ کی تبدیلی کی متعلقہ ضروری کاروائیاں دسمبر 2020 میں مکمل کی جا چکی ہیں۔

نتیجناً ، KEL کے سودے کی محتاط طور پر نشاندہی کرکے ، پیشہ ورانہ طور پر اس کی ساخت بنائی اور باہمی رضا مندی سے پابند کیا گیا ہے۔ یہ بات انتہائی اہم ہےکہ اس حقیقت کی نشاندہی کی جائے کہ،غیر استعمال شدہ اثاثہ جات کا معیشت میں استعمال ہر صورت میں ملک ، اس کی معیشت اور

کمپنیاں جو اس کام میں شامل ہیں ، سب کے لیے جیت ہی جیت ہے جو کہ پورے نظام میں ایک معمولی سا حصہ ہے۔

کمپنی کو کم سے کم سرمایہ رکھنے کی ضرورت(MCR) میں در پیش کمی کو مدِنظر رکھتے ہوئے منقسمہ آمدنی (بونس یا نقد) کی حصص یافتگان میں تقسیم کے لیے کسی رقم پر غور نہیں کیا جا سکا ہے۔ تاہم ہم پر اعتماد ہیں کہ جیسے ہی ایک مرتبہ 2 ارب پاکستانی روپے کے سرمایہ کی فراہمی کا معاملہ مکمل ہوا جس سے کمپنی کی MCR کی تعمیل بھی مکمل ہوتے ہی کمپنی مناسب منافع کمانے لگے گی اور اس قابل ہو گی کہ اپنے حصص کنندگان کی منقسمہ منافع تقسیم کر سکے گی۔

سال 2020 کے لیے پاکستان کی کریڈٹ ریٹنگ ایجنسی (PACRA)نے پاک لیبیا کی گذشتہ سال کی کریڈٹ درجہ بندی کو برقرار رکھا جو درج ذیل ہے تاہم، مسلسل کوششوں اور پابندی سے بنیادی مسائل کے حل پر توجہ رکھنے کے نتیجے میں کمپنی کے مستقبل کا منظر نامہ میں بہتری ہونے پر منفی سے مستحکم ہو گئی ہے جو درج ذیل ہے ؟

اداراتی سماجی ذمہ داری

کمپنی ہمیشہ سے اپنی سماجی ذمہ داری پوری کرنے کے لیے سرگرم رہی ہے اور مستقبل میں بھی اس محاذ پر کوششیں جاری رکھے گی۔ تاہم، کمپنی کی کار کردگی کے باوجود، ہم بینک دولت پاکستان کے کم سے کم سرمایہ کی پابندی اور SBP پروڈینشل قوائد و ضوابط کی وجہ سے ہم نمایاں اور معروف خیراتی اداروں کی مدد نہیں کر سکے۔

سبز بینکاری کا آغاز

کمپنی سبز بینکاری کی پالیسی اپنا چکا ہے، جس کے تحت پاک لیبیا نئے منصوبوں کے لیے قرضہ کی فراہمی کے لیے متعلقہ دستاویزات طلب کرتا ہے جن کو ماحول کے تحفظ ایکٹ میں بیان کیا جا چکا ہے جبکہ موجودہ قرضہ جات میں، انتظامیہ ماحول کی ایجنسیز کے تشکیل کردہ ماحول کے معیار کی کسوٹی کی پیروی کا اندازہ لگاتی ہے۔ کسی موقع پر، جہاں قرض لینے والا ماحول کے متعین کسی کسوٹی کی تعمیل نہیں کرتا، تو کمپنی اس کی حوصلہ افزائی اور معاونت کرتی ہے کہ وہ ماحول کے تحفظ کے لیے بہتر اقدامات کرے۔

انتظامیہ سبز بینکاری آفیسر نامزد کر چکی ہے اور گرین بینکاری آفس کی قیام کے مراحل میں ہے تاکہ وہ گرین بینکاری کی سرگرمیوں اور پیشرفتوں کے بارے میں اعداد و شمار / معلومات جمع اور ان کا انضمام (consolidate)کرکے اعلیٰ انتظامیہ/بورڈ اور SBP کوان کے طلب کرنے پر فراہم کرے ۔

صارف کی شکایتوں کے تدارک کا طریقہ کار (Mechanism)

کمپنی اپنے گاہکوں کو معیاری خدمات اور بلند ترین سطح کے اطمینان فراہم کرنے کے لیے پر عزم ہے اس کے لیے باقائدہ پالیسی اپنا چکی ہے اور گاہکوں کی شکایات کے تدارک کے لیے ایک طریقہ کار وضع کر چکی ہے۔ انتظامیہ نے شکایت کے تدارک کے طریقہ کار (mechanism) کے ذریعے سے اس بات کو یقینی بناتی ہے کہ شکایات کا بروقت ازالہ ہو جائے اور جہاں تک ممکن ہو شکایات کے اعادہ کو روکا جائے۔

تمام شکایات سربراہ HRA اور (SVP (RMRC کی زیر نگرانی مرکزی شکائت مینجمنٹ سسٹم کے ذریعے نپٹائی جاتی ہیں۔

بورڈ ک*ی* ساخت

سال کے دوران بورڈ کی کوئی آسامی موجود نہیں تھی۔

بورڈ کی کارکردگی کا جائزہ

کمپنی نے بورڈ کے ارکان کی کارکردگی جانچنے کی ذمہ داری ، پاکستان انسٹیٹیوٹ آف کارپوریٹ گورننس (PICG)، جو ایک بورڈ کے ارکان کی کارکردگی کے تخمینے کے لیے ماہر انسٹیٹیوٹ ہے، کو سونپ دی ہے۔ بیرونی تخمینہ کار، بورڈ کی مجموعی کارکردگی کے بارے میں ایک آزادنہ اور مخصوص نقطہ نظر دیتا ہے۔ بورڈ کا چیر مین کارکردگی کے بارے میں نتائج کی اطلاع تمام بورڈ ارکان کو دیتا ہے۔

خطرے سے نیٹنے کا انتظامی ڈھانچہ (Risk Management Framework)

کمپنی کے رسک مینجمنٹ کی ساخت کی نگرانی بورڈ کی رسک مینجمنٹ کمیٹی (BRMC)کرتی ہے جس نے اس کی مزید ذمہ داری، مینجمنٹ رسک مینجمنٹ کمیٹی (MRMC) کو سونپی ہے کہ وہ کمپنی کے مجموعی کاروباری میلان کی بنیاد پر اس کو در پیش خطرات کا تخمینہ لگائے اور ان کو کم کرنے کے لیے حکمتِ عملی بنائے اور عملی اقدام کرے۔

کمپنی کے قرضہ پالیسی اور قرضہ کی ہدایات کے کتا بچے (manual) کو خطرات اور قوائد و ضوابط کے تبدیل ہوتے ہوئے ماحول کے مطابق ان میں ترمیم یا تجدید کر دی گئی ہے اور ان کا نفاذ کیا جا رہا ہے تاکہ ہر گاہک جو خطرہ اپنے ساتھ لاتا ہے اس کی تسلسل سے بہتر اور جامع قدر پیمائی کی جاتی رہے۔ متعلقہ خطرات کی قدر پیمائی کے لیے Obligor Risk Rating Model اور Facility Risk Rating Model کا تبدیل شدہ ڈیزائن مقاصد کا بھر پور احاطہ کرنے کے لیے اندرونی خطرے کی درجہ بندی کے نمونے (Internal Rating Model) پر زور دیتا ہے۔ نتیجتاً، خطرے کے جذب ہونے کی مخصوص حدود کو شامل کرنے کے لیے مزید وضاحت کی جا چکی ہے۔ مزید یہ کہ نگرانی اور رپورٹنگ کے طریقہ کار کو بھی مضبوط کر دیا گیا ہے جس کا مقصد مجموعی قرضوں کے خطرات کے انتظامی طریقِ عمل کو بہتر کیا جانا ہے۔

ہمارا خیال ہے کہ سال کے دوران بنا رکاوٹ کے آپریشن کے کاموں کو جاری رکھنے کے لیے مستحکم رسک فنکشن نہایت اہم ہے۔ اس لیے کسی بھی ناگہانی طور پر در پیش خطرے کے لیے چوکس رہنے اور اپنے کاروبار کے آپریشن کے تسلسل کو یقینی بنانے کے لیے ہم نے، BCP سائٹ کو برقرار رکھا جا رہا ہے۔ مزید یہ کہ قوائد کی تعمیل کے ساتھ ساتھ کوئی حادثہ جس کا تدارک فوری ضروری ہو اور اپریشنل رسک میکنزم کے مؤثر ہونے کی قدر پیمائی کے لیے آپریشنل رسک کا ڈیٹا بیس با قائدگی سے رکھا جا رہا ہے۔

عملی کی سرگرمیوں سے پیدا ہونے والے رسک کے انتظام کو مدِنظر رکھتے ہوئے ہم نے پوری کمپنی میں ہر کاروباری یونٹ کے کاروبار کے تسلسل کے لیے دستاویزی منصوبے کو باضابطہ بنا چکے ہیں۔ سال کے دوران ہم نے مروجہ بہترین مشقوں (practices) اور رپورٹنگ کی ضروریات کو مدِنظر رکھتے ہوئے اپنے اندرونی نگرانی کے نظام کو مضبوط کرنے کا عمل جاری رکھتے ہوئے متعدد اقدامات کئے اور مزید بہتری کے ساتھ مربوط IT سسٹم نافذ کیا جا چکا ہے ۔ علاوہ ازیں ہماری تعمیل ، رسک مینجمنٹ اور مجموعی اندرونی نگرانی کا نظام مضبوط ہے اور SBP کی ہدایات کا نفاذ اور مالیاتی رپورٹنگ (ICFR) کے لیے اندرونی نگرانی کا ڈھانچہ مستحکم ہے۔

مارکیٹ رسک فنکشن نے مارکیٹ سے متعلق خطرات کی نگرانی جاری رکھی۔ دباؤ ٹیسٹنگ کا تجزئیے کا استعمال موجودہ قرضہ جات کو درپیش اہم خطرات کے ممکنہ اثرات کا اندازہ لگایا جا سکے۔ ترمیم شدہ مارکیٹ رسک پالیسی بمع مفصل شرح سود کے نرخ کا نفاذ کیا جا چکا ہے۔ مجموعی مارکیٹ رسک مینجمنٹ کے ڈھانچے سودی نرخ کے خطرات کے لئے نگرانی اور رپورٹنگ کے رہنما اصول کو بڑھا دیا گیا ہے۔

کمپنی کے پاس سیا لیت (liquidity) مینجمنٹ پالیسی کے علاوہ سیالیت رسک مینجمنٹ پالیسی بھی موجود ہے۔ تبدیل شدہ سیالیت رسک مینجمنٹ کی ہدایات کے کتابچے میں سیالیت کے لیے تفصیلی اور جامع بنگامی پلان شامل ہے۔

کمپنی نے پورے سال میں II-Basel اور III-Basel کی ضروریات کے مطابق اپنے CAR کوضوابط میں دیئے گئے معیار سے بھی بلند درجے پر برقراری جاری رکھی ہے۔ اندرونی سرمایہ کی موزونیت کے تخمینہ کے پراسس (ICAAP) کے ڈھانچہ کا SBPکے فراہم کردہ رہنما اصولوں کی روشنی میں جائزہ لیا گیا تاکہ پراسس کو مضبوط اور مؤثر بنایا جا سکے۔ مزید یہ کہ SBP کے 6 ارب کے کم سے کم سرمایہ کی دستوری پابندی (MCR) کی تعمیل کے لیے کوششیں جاری ہیں ۔ MoF اور AFICO (دونوں حصص کنندگان ہیں) نے اضافی ملکیتی سرمایہ کو ڈالا ہے تاکہ کمپنی میں نقصان برداشت کرنے کی استعداد ، ہموار آپریشن اور طویل المدت تسلسل سے جاری رہنے والی نمو میں اضافہ کیا جا سکے۔ اس سلسلے میں کمپنی کا منظور شدہ کیپیٹل بڑھا کر 10 ارب روپے کر دیا گیا ہے۔

کمپنی کے پورٹ فولیو کی نمو کو موئٹر کیا جا رہا ہے تاکہ ہر اہم /متعلقہ ایریا میں اس کی متعین حدود کے ذریعے سے خطرات کے ارتکاز (concentration) کو روکا جا سکے۔ پروٹینشل کے ضابطوں میں ترمیم ، اگر کوئی واقع ہوئی یا ہو گی تو ، اس کے بعد ان حدود کو بھی با ضابطہ طور سے تبدیل کر دیا گیا ہے یا کر دیا جائے گا۔ کمپنی کا ارادہ ہے کہ کاروبار کی ترقی کے لیے براہِ راست شمولیت کے ذریعے اور خطرہ میں اپنا حصہ ڈالے ۔ رسک مینجمنٹ فنکش رسک کے طے شدہ مثبت نکات پر مستعدی سے حصہ لیتا ہے۔

سال کے دوران کمپنی نے تعمیل کے پروگرام کے کو مستحکم کرنے کا عمل جاری رکھا اور اس کے ساتھ مناسب KYC/(compliance) کے کنٹرول موجود ہیں اور وہ ضوابط کی تعمیل کو یقینی بناتے ہیں اور انتظامیہ کی آگاہی تعمیل کے تناظر کمیٹی کے فورم کے ذریعے کرتے رہتے ہیں۔ تمام پالیسیاں، طریق کار اور مالی مصنوعات کا جائزہ تعمیل کے تناظر میں لیا جاتا ہے اور اس کے ساتھ ریگولیٹری اتھاریٹیز کے ساتھ تعلقات برقرار رکھے جاتے ہیں۔

کمپنی کا مجموعی مالیاتی خطرے سے نپٹنے کا ڈھانچہ مضبوط ہے۔ کمپنی اپنے رسک منیجمنٹ اور اندرونی کنٹرول ڈھانچے کو مزید بہتر اور مضبوط کرنے کے عمل کو جاری رکھے ہوئے ہے۔

اندرونی کنٹرول پر بیان

کمپنی کے مقاصد کو حاصل کرنے کے لیے ایک مضبوط اندرونی کنٹرول کا نظام موجود ہے اور اس میں کاروبار کی ضروریات اور آپریشن کے ماحول میں تبدیلی کی روشنی میں مسلسل بہتری لائی جا رہی ہے۔ انتظامیہ اندرونی کنٹرول بمع مالیاتی رپورٹنگ کا اندرونی کنٹرولز کا اندازہ لگا چکی ہے اور اس کو مؤثر قرار دے چکی ہے جس کی توثیق بورڈ نے بھی کردی ہے۔ کمپنی کے مضبوط کنٹرول کے ماحول کو مد نظر رکھتے ہوئے بینک دولت پاکستان نے کمپنی کو سالانہ بیرونی محتسب کے مالیاتی رپورٹنگ کے اندرونی کنٹرول (ICFR) کے طویل فارم کو جمع کروانے سے استثنیٰ کی منظوری دی ہوئی ہے۔

محاسبین (Auditors) کا اپنی آڈٹ رپورٹ پر تبصرہ

کمپنی کے بیرونی محاسبین (External Auditors) نے سمٹ بینک (کاؤنٹر فریق) کی TFC's میں سرمایہ کاری جس کی مالیت 398.58 ملین روپے ہے اس پر اپنی qualified رائے دے دی ہے جس کا حوالہ منسلک مالیاتی دستاویزات کے نوٹ نمبر 8.2.6 دیا گیا ہے جس میں وہ TFC's کی وصولی کے سلسلے میں کافی، مناسب آڈٹ کی شہادت حاصل نہ کر سکے۔

مذکورہ اضافی پیراگراف پر توجہ اپنی آڈٹ رپورٹ میں دے چکے ہیں۔ انہوں نے توجہ دلائی ہے کہ ؟

- a منسلک دستاویزات کے نوٹ 1.2 دیکھا جائے ،جس میں کمپنی کا کم سے کم کیپیٹل کی ضرورت کو پورا کرنے کے لیے کا اس کا منصوبہ اور اس پر عمل۔
- b. نوٹ 13 اور 42.2 کو دیکھا جائے جس میں کمپنی کا "کاموکی انرجی لمیٹڈ (KEL)" سے متعلق اثاثہ جات کی فروخت کے سلسلے میں کمپنی کا منصوبہ اور عمل۔

محاسبین (Auditors) کی رائے مذکورہ بالا معاملے پر qualified نہیں ہے۔

محاسبین (Auditors) کا اداراتی نظم و ضبط کی بہترین مشقوں (Practices) پر ان کی جائزہ رپورٹ میں تبصرہ

محاسبین (Auditors)نے اپنی جائزہ رپورٹ میں اداراتی نظم و ضبط کارکردگی کی بہترین مشقوں (Practices) پر کسی مادی عدم تعمیل کی نشاندہی نہیں کی ہے۔

پراویڈینٹ اور گریجوٹی کی سرمایہ کاری کا بیان

31 دسمبر 2019 پر آڈٹ شدہ گوش واروں کی بنیاد پر پراویڈینٹ اور گریجوٹی کی سرمایہ کاری کی مالیت (علاوہ بینک میں نقد رقم) بالترتیب 101.18 ملین پاکستانی روپے اور 132.50 ملین پاکستانی روپے رہی۔

کمپنی کی امیدِ مستقبل (Company Outlook)

جاری عالمی وباء کے نتیجے میں معاشی تعطل سے ملک بھر میں بہت غیر معمولی غیر یقینی کی صورتحال پیدا ہو گی ہے۔ اس غیر یقینی صورتحال کرنے میں بہت گی ہے۔ اس غیر یقینی صورتحال کے باوجود کمپنی نے اپنے کچھ تزویراتی (strategic) مقاصد حاصل کرنے میں بہت زیادہ لچک دکھائی ہے۔

کم سے کم کیپیٹل کی ضرورت (Minimum Capital Requirement) اور کاموکی انرجی (Energy) لمیٹڈ (KEL) اثاثہ جات جیسے انتہائی اہم دیرینہ مسائل سے خلاصی کے بعد ہم مستقبل کی حکمت عملی اور امید مستقبل کے بارے میں پر عزم ہیں۔ توانائی کے پلانٹ (ایک غیر بینکاری اثاثہ) کے معاشی استعمال، اور متعلقہ خلاصی، ڈپازٹس کو متحرک کرنے، جو فنڈنگ کا ایک مستحکم ذریعہ ہے، اور ایڈوانسز پورٹ فولیو، جو بنیادی سرگرمی ہے، سے ایک مسلسل آمدنی کا ذریعہ ہو گا اور ہم سمجھتے اور یقین رکھتے ہیں کہ کمپنی تسلسل سے منافع بخشی (profitability) اور طویل المدت نمو کے اہداف حاصل کرنے کے قابل ہو گی۔

TFCs میں کی گئی سرمایہ کاری جن کی مالیت 398.58 ملین روپے ہے،اس سرمایہ کی وصولیانی (recoverability) کے حوالے سے، اس کے جاری کرنے والے بینک کے ارادے اور ادائیگی کی صلاحیت کے بارے میں کمپنی کی انتظامیہ مجموعی صورتحال کا تجزیہ کیا ؛ نتیجتاً اس کا خلاصہ یہ ہے کہ دونوں عناصر موجود ہیں جیسا کہ وہ قرضہ (debt) تسلیم کرتے ہیں اور اس کے آپریشن پر کوئی پابندی نہیں ہے، اس ادائیگی میں تاخیر کی وجہ " کم سے کم کیپیٹل کی ضروریات " کا پورا نہ ہونا ہے۔اس سلسلے میں بینک دولت پاکستان، TFCs کا اجراء کنندہ بینک کو 27 اکتوبر 2020 تک کی حتمی منظوری دے چکا ہے، تاہم مذکورہ بینک نے درخواست کی ہے کہ اسے علحدہ سے 27 اکتوبر 2021 تک کی مدت کی اصولی منظوری (سابقہ سال کی طرح) دی جائے۔ اس لیے کمپنی کی انتظامیہ نے مذکورہ TFCs پر بے بنیاد (subjective) خدشات کی بناء پر اس خرابی (impairment) کی تلافی فراہم نہیں کی ہے جس کی وجہ حالی پیش رفت اور مذاکرات جاری ہیں کہ اس معاملے کا باہمی رضامندی سے حل ہو اور رقم کی مکمل وصولی۔

علاوہ ازیں، کمپنی کی سیالیت (liquidity) کا خلا کو پورا کرنے اور غیر یقینی صورتحال کے لیے فنڈ کرنے کی منصوبہ بندی کو یقینی بنانے کے لیے ایک طویل مدت کی نئی کریڈٹ لائن کے لیے مذاکرات جاری ہیں۔ مزید یہ کہ کمپنی نے اپنے کاروبار کے ماڈل، اثاثہ جات کے آمیزہ (mix) اور دستیاب وسائل پر نظر ثانی کی ہے تاکہ منافع بخشی پر مناسب اثرات ہوں اور دستوری ضروریات کی تعمیل کے ساتھ ساتھ طویل المدت تسلسل سے جاری رہنے والی نمو کو حاصل کیا جا سکے۔

انتظامیہ کمپنی کے منافع بخش آپریشن بشمول مسائل پیدا کرنے والے اور نا کارکردگی دکھانے والے اثاثہ جات کی بحالی کی کوششیں کے سلسلے میں تمام ممکنہ امکانات پر توجہ دے رہی ہے

انتظامیہ کی جانب سے کی جانے والی کوششوں کی بنیاد پر ہم کمپنی کی مستقبل میں ترقی، منافع بخش ہونے اور اس کے تسلسل کے بارے میں بہت پر امید ہیں۔

ستائش

بورڈ اور انتظامیہ کی جانب سے، ہم اپنے گاہکوں اور پاک لیبیا کے تمام شرکاء مفاد (stakeholders) کا کمپنی پر مسلسل اعتماد کرتے رہنے پر اظہار ممنونیت کرتے ہیں۔ ہم اپنے حصص یا فتگان: LAFICOاور بینک دولت پاکستان بشمول وزارت خزانہ کی مسلسل حمایت اور رہنمائی اور کمپنی کے ملازمین کے مسلسل اعتماد اور وفاداری کو بھی سراہتے ہیں۔

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAK LIBYA HOLDING COMPANY (PRIVATE) LIMITED

Report on the audit of the financial statements

GRANT THORNTON ANJUM RAHMAN

1st & 3rd Floor, Modern Motors House Beaumont Road, Karachi 75530

T +92 021 3567 2951-56 F +92 021 3568 8834 www.gtpak.com

Qualified Opinion

We have audited the annexed financial statements of Pak Libya Holding Company (Private) Limited (the Company), which comprise the statement of financial position as at December 31, 2020, and the profit and loss account, the statement of comprehensive income, the statement of changes in equity and the cash flow statement for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the statement of financial position, the profit and loss account, the statement of comprehensive income, statement of changes in equity and cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and, give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at December 31, 2020 and of the profit and loss, the comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Qualified Opinion

Investments (refer note 8.2.6) include term finance certificates (TFC) amounting to Rs. 398.58 million (2019: Rs. 398.58 million). We were unable to obtain sufficient appropriate audit evidence to determine the recoverability of these TFCs. There are no other sufficient alternative audit procedures that we could adopt to determine whether any allowance for non-recovery of the amount should be made in these financial statements for the year ended December 31, 2020. Adjustment to the figures described above might have consequential effects on the Company's results for the year ended December 31, 2020 and the financial position of the Company as at December 31, 2020 and the related disclosures presented in the financial statements.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards

Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of Matters

We draw attention to the following matters:

- i) Refer note 1.2 to the accompanying financial statements which explains that the Company has been non-compliant with minimum capital requirements since prior years which has a trickle-down effect on every aspect of the operations; and
- ii) Refer note 13.1.1 & 42.2 to the accompanying financial statements relating to the company's plan and actions for disposal of asset relating to Kamoki Energy Limited (KEL).

Our opinion is not modified in respect of the above matters.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- O Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- O Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- O Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- O Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period

and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017) have been found adequate for the purpose of our audit;
- b) the statement of financial position, the profit and loss account, the statement of comprehensive income, statement of changes in equity and cash flow statement (together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Company and the transactions of the Company which have come to our notice have been within the powers of the Company; and
- d) no zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Muhammad Shaukat Naseeb.

REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICE OF CORPORATE GOVERNANCE

GRANT THORNTON ANJUM RAHMAN

1st & 3rd Floor, Modern Motors House Beaumont Road, Karachi 75530

T +92 021 3567 2951-56 F +92 021 3568 8834 www.gtpak.com

We have reviewed the enclosed Statement of Compliance with the best practices of Corporate Governance (the Statement) prepared by the Board of Pak-Libya Holding Company (Private) Limited (the Company) for the year ended December 31, 2020. The Code of Corporate Governance is no longer applicable on Development Finance Institutions (DFI's) vide BPRD Circular no. 14 dated October 20, 2016 issued by the State Bank of Pakistan. However, DFI's are expected to continue to follow the best practice on corporate governance.

The responsibility for voluntary compliance with the Statement is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of compliance reflects the status of the Company's compliance with the provisions of the Statement and report if it does not and to highlight any non-compliance with the requirement of the Statement. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Statement.

As part of our audit of financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risk.

As a best practice, the Company place before the Audit Committee and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevailed in arm's length transactions and transactions which are not executed at arm's length priced recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices of corporate governance followed by the Company for the year ended December 31, 2020.

STATEMENT OF INTERNAL CONTROLS FOR THE YEAR ENDED 31 DECEMBER 2020

OVERVIEW OF INTERNAL CONTROL SYSTEM

It is the responsibility of the Company's management to establish and maintain a sound system of internal controls that helps in effective and efficient operations, reliable financial reporting and compliance with applicable laws and regulations. The internal control system comprises of various inter-related components including Control Environment, Risk Assessment, Control Activities, Information and Communication and Monitoring.

Due to inherent limitation, internal controls may not prevent or detect and correct, misstatements. The internal control system is designed to manage rather than eliminate the risk of failure to achieve business objective, and can only provide reasonable and not absolute assurance against material misstatement or loss.

Following is the brief on the internal control systems:

- Management identifies control objectives for key areas, makes necessary policies and procedures for effective controls and ensures implementation of the same.
- Policies for various key areas have been made which have been approved by the Board of Directors.
- Policies and procedures are reviewed and amendments are made to continuously bring required improvements in the same from time to time.

PAK-LIBYA HOLDING COMPANY (PRIVATE) LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

I. STATUS AND NATURE OF BUSINESS

1.1 Pak-Libya Holding Company (Private) Limited (the Company) was incorporated in Pakistan as a private limited company on 14 October 1978. It is a joint venture between the Government of Pakistan and Government of Libya (State of Libya). The tenure of the Company was thirty years from the date of its establishment. The two contracting parties (i.e. both the governments through their representatives) extended the tenure of the Company for further thirty years upto 14 October 2038. The objectives of the Company interalia include the promotion of economic growth of Pakistan through industrial development, to undertake other feasible business and to establish and acquire companies to conduct various businesses as may be decided from time to time. The Company is designated as a Development Financial Institution (DFI) under the BPD Circular No. 35 dated 28 October 2003 issued by the State Bank of Pakistan (SBP).

The registered office of the Company is located at 5th Floor, Block C, Finance and Trade Centre, Shahrah-e-Faisal, Karachi, Pakistan. The Company has one sales and service center located at Lahore. Effective 05 August 2012, activities of Islamabad office have been suspended for the time being after review of the business strategy.

1.2 The State Bank of Pakistan (SBP) through its BSD Circular No. 19 dated 05 September 2008 has prescribed that the minimum paid-up capital (free of losses) for Development Financial Institutions (DFIs) is required to be maintained at Rs. 6 billion. The paid-up capital of the Company (free of losses) as of 31 December 2020 amounted to Rs. 5.737 billion (31 December 2019: Rs. 3.778 billion). The Company has been non-compliant with minimum capital requirements since prior years which has a trickle-down effect on every aspect of the operations including various reduced prudential limits.

Therefore, the BoD of the Company approved a 5-year plan, prepared by the management, together with projections. As a result, the management of the Company has taken following steps to improve the financial position of the Company.

During the year, the Company has increased its paid up capital against the equity received in tranches from shareholders. Consequently, the paid up capital of the Company has increased from Rs. 6.141 billion to Rs.7.871 billion. Since the Libyan shareholder has already injected entire share of equity, its remaining amount of Rs.135 million has been treated as advance against share subscription till issuance of remaining shares.

Subsequent to the year end, the Company has received remaining portion of final tranche of Rs. 135 million from GoP and issued shares amounting to Rs. 270 million (Rs. 135 million each shareholder); therefore, the paid up capital of the Company has increased to Rs. 8.141 billion and its capital free of losses met the minimum capital requirements.

The existence of novel corona virus (COVID-19) was confirmed in early 2020 and spread across the globe, causing disruption to businesses and economic activities. The spread of contagion and its impacts on international economy, triggered an unsettling fear of global recession as the pandemic causing disruption to businesses and economic activities all over the world.

The Pakistan government has taken unprecedented steps to dampen the impact of COVID-19 and has unveiled a sizable rescue and stimulus package with a good balance between providing direct assistance to the vulnerable and protecting industry and businesses. State Bank of Pakistan (SBP) was equally supportive and introduced various measure to support economy of Pakistan.

In this regard, SBP reduced the policy rate by cumulative 625 basis points between March to June 2020 and took following measures to ensure soundness of overall banking system and to support economic activities by:

- Reducing the capital conservation buffer by 100 basis points to 1.5% to enable financial institutions to lend additional amounts,
- Increasing the regulatory limit on extension of credit to SMEs to Rs. 180 million,
- Allowing banks to defer clients' payment of principal on loan obligation by one year, and relaxing regulatory criteria for restructured/resclieduled loans for borrowers who require relief for principal and mark up,
- Reducing margin requirement of 30% vis-à-vis banks' financing against listed shares to 10%, and
- Relaxation in recording impairment of capital market investment etc.

The Company responded to this fluid situation and implemented mitigating factors by having lean structure in place, holding Credit, ALCO and Investment committees meeting via video-link, invoking business continuity planning (BCP) arrangements and continuous review of the existing credit and investment portfolios. Further, the Company responded the aforementioned efforts of GoP/SBP and extended support to customers under various relief schemes amounting to PKR 1,220 million. Simultaneously, the Company availed relaxation in recording impairment in phase manner on capital market investments.

Moreover, the Company has taken various measures including efforts to dispose of non-banking assets related to Kamoki Energy Limited with an objective to deploy these assets into economic use so that it could contribute many positive benefits to the economy and a sustainable income stream supplementing the core activities of the Company together with focus on tighten the controls over operating cost with the aim to attain profit and positive cash flows from operations.

The investors were conscious for their existing investments, due to overall uncertainty, let alone considering new investment. Despite all the challenges, the management managed to implement the revised business strategy and is taking steps to improve the Company's liquidity, profitability and cash flows via active cost saving and other measures. The management is confident that, taking into account the above mentioned plans and measures vis-a-vis actual performance, the Company will have sufficient funds to finance its operations and to meet its financial obligations. The Company based on these developments, requested SBP for MCR extension.

2.4 Critical accounting estimates and judgments

The preparation of these financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows:

- Provision for bad and doubtful advances including net investment in lease (note 4.5) a)
- Classification and provisioning of investments (note 4.4 & 4.15) b)
- Depreciation of property and equipment and amortisation of intangible assets (note 4.6) c)
- d) Assumptions and estimation in recognition of deferred taxation (note 4.13)
- Accounting for defined benefit plan and compensated absences (note 4.9) e)
- n Impairment (note 4.14)

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

3. BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention except that certain investments have been stated at revalued amounts in accordance with the directives of the SBP.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of these financial statements are same as those applied in the preparation of the annual audited financial statements for the year ended 31 December 2019.

4.1 These financial statements have been prepared in accordance with SBP revised format of financial statements for Banks / DFIs issued vide BPRD circular No. 02 of 2018.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise cash and balances with treasury banks, balances with other banks and placements with financial institutions having maturities of three (3) months or less.

4.3 Securities under repurchase / resale agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective yield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Company does not obtain control over the securities. Amounts paid under these agreements are included in lendings. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

4.4 Investments

Investments other than those categorised as held-for-trading are initially recognised at fair value which includes transaction costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the profit and loss account.

The Company has classified its investments, except for strategic investment in joint venture, into 'held-for-trading', 'held-to-maturity' and 'available-for-sale' portfolios as follows:

Held-for-trading

These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within 90 days. These are carried at market value, with the related gain / (loss) on revaluation being taken to profit and loss account.

Intra day trading

The cost of acquisition of 'dealing securities' (i.e. listed securities purchased and sold on the same day) is not considered for calculating the 'moving average cost' of other listed securities (i.e. listed securities sold after the date of purchase).

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.

Available-for-sale

These are investments that do not fall under the held-for-trading or held to maturity categories. Investments are initially recognised at cost being its fair value which includes transaction costs associated with the investment. These are carried at market value except for unlisted securities where market value is not available, which are carried at lower of cost and break-up value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account. Provision for diminution in value of investments in respect of unlisted shares is calculated with reference to book value of the same. On derecognition of quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of investments' is included in the profit and loss account for the period.

The Company amortises the premium / discount on acquisition of government securities using the effective yield method.

Provision for diminution in value of investments for unlisted debt securities is calculated as per the SBP's Prudential Regulations.

The Company follows the 'Settlement date' accounting for investments.

Gains and losses arising on sale of investments are recognised in the profit and loss account.

Investment in subsidiary

Investment in subsidiary are valued at cost less impairment, if any. Gains and losses on disposal of investments is recognised in the profit and loss account.

Investment in associate

Associates are those entities in which the Company has significant influence but does not have control over the financial and operating policies. The Company recognizes gains and losses of the associates on equity accounting basis, from the date significant influence commences until the date that significant influence ceases, until the share of losses exceeds its interest in associate.

4.5 Advances including net investment in finance leases

Advances are stated as net of provisions for bad and doubtful debts, if any, which are charged to the profit and loss account currently. Advances are written off where there is no realistic prospect of recovery.

The Company determines the provisions against advances on a prudent basis keeping in view the stipulations of the prudential regulations issued by the SBP. The provision is charged to profit and loss account.

Leases

When substantially all risks and rewards related to ownership of the assets are transferred to the lessee, such leases are classified as finance lease.

A receivable is recognised at an amount equal to the present value of the lease payment. The difference between gross receivable and the present value of the receivable is recognised as uncarned finance income.

Provisions

Specific

Specific provision against funded loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the profit and loss account.

General provision

General provision is maintained on consumer financing portfolio in accordance with the requirements of Prudential Regulations for Consumer Financing issued by SBP and charged to the profit and loss account.

4.6 Operating fixed assets and depreciation

4.6.1 Owned

Tangible fixed assets are stated at cost less accumulated depreciation and impairment loss, if any. Capital work in progress is stated at cost, and these are transferred to specific assets as and when assets are available for use.

Residual values and useful lives are reviewed at each balance sheet date, and adjusted if impact on depreciation is considered significant.

Depreciation is charged to the profit and loss account applying the straight-line method whereby the cost of an asset is written off over its estimated service life.

Depreciation on additions in the first half of the month and disposals in the second half of the month is charged for the whole month whereas no depreciation is charged on additions during the second half of the month and disposals in the first half of the month.

Maintenance and normal repairs are charged to profit and loss account as and when incurred.

Assets are derecognised when no future economic benefit is expected from its use or disposal. Profit or loss on sale or retirement of fixed assets is included in the profit and loss account.

4.6.2 Leased

Assets held under finance leases are accounted for by recording the assets and related liabilities at the amounts determined on the basis of lower of fair value of assets and the present value of minimum lease payments. Finance charge is allocated to accounting periods in a manner as to provide a constant rate on the outstanding liability. Depreciation is charged on leased assets on a basis similar to that of owned assets.

4.6.3 Right of use assets (ROUA)

The Company recognises 'Right of use asset' (ROUA) in respect of the leases measured as the present value of the remaining lease payments on property lease agreements and discounted using the incremental borrowing rate for the Company. These assets are depreciated on a straight line basis over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. These assets are also reduced by impairment losses, if any, and adjusted for certain remeasurements of lease liability.

4.6.4 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment losses, if any.

Intangible assets having a finite life are amortised using the straight line method over their estimated useful lives after taking into account the residual value, if any.

Amortisation on additions and deletions of intangible assets during the year is charged in proportion to the period of use.

Amortisation on additions in the first half of the month and disposals in the second half of the month is charged for the whole month whereas no amortisation is charged on additions during the second half of the month and disposals in the first half of the month.

4.7 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially measured at cost / forced sale value at the time of acquisition. These assets are revalued as per SBP's requirement by independent professionally qualified valuer to ensure that their carring value does not exceed their fair value / valuation.

4.8 Borrowings and deposits

Borrowings and deposits are recorded at the amount of proceeds received. Mark-up on borrowings and deposits are charged to profit and loss account on a time proportion basis.

4.9 Staff retirement benefits

Defined benefit plan

- Gratuity Fund

The Company operates a funded gratuity scheme for all its permanent employees in accordance with the human resource policy of the Company and terms of employment for managing director and deputy managing director. Contributions towards defined benefit schemes are made on the basis of actuarial advice using the Projected Unit Credit Method.

Actuarial gains or losses are recognised in accordance with the requirements of IAS-19 (Revised).

The last actuarial valuation of the scheme was carried out as at 31 December 2020. The benefit under the gratuity scheme is payable on retirement at the age of 60 or earlier cessation of service, in lump sum.

- Benevolent Fund

The Company operates a benevolent fund scheme for its employees where equal fixed contributions are being made by employees and the Company. Employees or their legal heirs are entitled to certain pre-defined benefits on happening of specified events including retirement, incapacitation, marriage and death etc. as per their entitlement. Contributions paid by Company to the fund are included in expenses for the period.

Defined contribution plan

The Company also operates a recognised provident fund scheme for its permanent employees. Equal monthly contributions are made, both by the Company and the employees, to the fund at a rate of 3.5 and 4 (2020: 3.5 and 4) percent respectively and 10 percent of salary for the managing director and deputy managing director, as applicable. The Company has no further payment obligation once the contributions have been paid. The contributions are recognised as an expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction of the future payments is available.

Compensated absences

The liability in respect of compensated absences of employees is accounted for in the period in which it is earned in terms of salary earned upto the statement of financial position date.

The Company recognises provision for compensated absences on the basis of actuarial valuation under Projected Unit Credit Method. The last actuarial valuation was carried out as at 31 December 2020.

4.10 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. These financial statements are presented in Pakistani Rupee, which is the Company's functional and presentation currency.

4.11 Foreign currencies

Foreign currency transactions during the year are recorded at the rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistani Rupee at the rates of exchange prevailing on the balance sheet date. Exchange gains and losses are included in the profit and loss account. Non-monetary items that are measured in terms of historical cost denominated in a foreign currency are translated using the exchange rate at the date of the transaction.

Commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange prevailing at the statement of financial position date.

4.12 Revenue recognition

Revenue is recognized to the extent that the economic benefits associated with a transaction will flow to the Company and the revenue can be reliably measured.

Dividend income is recognised when the Company's right to receive payment is established.

Gain on sale of securities is recognised at the time of sale of relevant securities.

Project evaluation, arrangement and front end fee are accounted for on receipt basis.

Income from loans, term finance certificates, sukuks, debentures, bank deposits, government securities and reverse repo transactions are recognised on accrual basis using the effective interest method except where recovery is considered doubtful in which case the income is recognised on receipt basis.

Premium or discount on debt securities is amortised using the effective interest method and taken to profit and loss account.

The Company follows the finance method in recognising income on lease contracts. Under this method the uneamed income i.e. the excess of aggregate lease rentals and the estimated residual value over the cost of the leased asset is deferred and then amortised over the term of the lease, so as to produce a constant rate of return on net investment in the lease.

4.13 Taxation

Current

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account the tax credits and tax rebates available, if any,

Deferred

The Company accounts for deferred taxation using the balance sheet liability method on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the applicable tax rates. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available and the credits will be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.14 Impairment

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists the assets' recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognised in profit and loss account.

4.15 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

Provision against identified non-funded losses is recognised when intimated and reasonable certainty exists for the Company to settle the obligation. The provision is charged to the profit and loss account net of expected recovery and the provision is classified under other liabilities.

Provisions are reviewed at each statement of financial position date and are adjusted to reflect the current best estimate.

4.16 Off-setting of financial assets and financial liabilities

A financial asset and a financial liability is set off and the net amount reported in the statement of financial position if the Company has a legal right to set off the transaction and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

4.17 Dividend and reserves

Dividend declared and appropriations, except for transfer of statutory reserve, made subsequent to the balance sheet date are recognised as liability and recorded as changes in reserves respectively in the period in which these are approved by the directors / shareholders as appropriate.

4.18 Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

4.19 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses; whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The Company's primary format of reporting is based on its business segments for which individual business strategies are formulated based on Company's overall business strategy and implementation plan.

Business segments

Following are the main segments of the Company:

Corporate & Investment Banking Includes loans, advances, lease financing, advisory services, mergers and acquisitions and other such corporate

and investment banking transactions.

Treasury

Undertakes Company's fund management activities through leveraging and investing in liquid assets such as short term placements, government securities and reverse repo activities. It carries out spread based activities in the

interbank market and manages the interest rate risk exposure of the Company.

Capital Market

Undertakes trading and investment primarily in listed securities with an aim to earn trading gains from market

fluctuation and to hold securities for dividend income and price appreciation in the form of capital gain.

SME & Retail Banking

Undertakes SME and Retail Finance activities via bills discounting, business loans against mortgaged property,

auto-lease financing and consumer financing.

Geographical segments

The geographical spread of Company's operations is limited to Pakistan only.

4.20 Borrowing cost

Borrowings are recorded at the proceeds received.

Borrowing costs are recognised as an expense in the period in which these are incurred except where such costs are directly attributable to the acquisition, construction or production of qualifying asset in which case such costs are capitalised as part of the cost of that asset.

4.21 Deposits and their cost

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective mark-up / interest rate method.

- 8.2.2 This represents 50% shareholding in the ordinary shares (Rs.10 each) of Kamoki Energy Limited (KEL), which has been fully provided. The book value represents cost of investment amounting to Rs. 500 million less share of loss on interest in joint venture amounting to Rs. 95.133 million upto 30 June 2012. This investment was designated as strategic investment under the Prudential Regulations for Corporate / Commercial Banking.
- 8.2.3 These include preference shares amounting to Rs.300 million which are cumulative, convertible, redeemable and non-participatory carrying dividend at the rate of 17% per annum having face value of Rs.10 each. These were redeemable within four years of the allotment date. If preference shares are not fully redeemed by the issuer in this time period, the remaining part along with the unpaid dividend thereon would be convertible at the option of preference shareholder at par value of Rs.10 into ordinary shares ranking part passu in all respects with the ordinary shares except for participation in dividend / bonus distribution for the period for which preference share dividend has been paid.
- 8.2.4 It includes unlisted ordinary shares of FTC Management Company (Private) Limited. FTC Management Company (Private) Limited was incorporated in Pakistan. It is engaged in managing, operating and maintaining building housing offices with the name Finance and Trade Centre (FTC) for the mutual benefits of its owners and thus providing a nucleus for all joint and common services which are available in the FTC situated in Karachi.
- 8.2.5 The Company established a wholly owned subsidiary named Kamoke Powergen (Private) Limited with a paid-up capital of Rs. 5 million representing 500,000 ordinary shares of Rs. 10 each. The Company appointed an SVP grade executive (Mr. Kashif Shabbir) as Chief Executive Officer (CEO) of KPL. KPL has been established as a Special Purpose Vehicle (SPV) to obtain power generation license from NEPRA to increase the saleability of assets of KEL. SBP's approval was obtained for the formation of KPL which was granted vide letter No. BPRD/RPD/27366/16 dated 16 November 2016. During the year, the Company has disposed off its major shareholding and management control, therefore, the subsidiary has become an associate.
- 8.2.6 It includes an investment in listed term finance certificates (TFC) amounting to Rs. 398.58 million comprising 79,955 units. During last quarter of the 2018, upon maturity, the issuer informed investors the status of minimum capital requirements and its pending merger with and into another Bank. As a result, issuer could not make the final payment of its mark-up and entire principal amount. Consequently, an extraordinary meeting of the TFC holders was held on 19 November 2018 wherein the majority of the TFC holders agreed to extend the maturity date of the TFC Issue for a period of one year (27 October 2019) on the existing terms and conditions as the counter party invoked the lock-in clause governed by clause 4.1.1 of the 'Declaration of Trust' to hold the payment till the minimum capital requirement is met. The clause is mandatorily invoked for the time being until proposed merger; however, the pending merger had been called off and the Bank started working to resolve the issue. Therefore, another extraordinary meeting of the TFC holders was held on 20 November 2019 wherein, considering the developments, the majority TFC holders agreed to extend the maturity of the TFC Issue for a period of another one year (27 October 2020) on the same terms.

Considering the delay is resolution, the TFC holders again agreed to extend the maturity period for another year ending 27 October 2021 so the Bank could finalise new arrangement with the investors for equity injection. The Bank acknowledges the debt and related mark-up as payable on the TFC Issue.

In this regard, SBP has given its final approval for the period till 27 October 2020 however the Bank has requested a separate in-principal approval (similar to prior year) for the period covering till 27 October 2021.

The management has evaluated overall situation vis-à-vis Bank's intention and ability to pay, accordingly, concluded that both the elements exist as it acknowledges the debt and there are no restrictions on its operations while the payment is delayed due to minimum capital requirements. Therefore, management has not provided any impairment on the said TFCs on subjective basis due to above facts and the recent developments & negotiations, in these financial statements.

8.2.7 It includes investment in unlisted TFCs of PIA amounting to Nil (31 December 2019: Rs.11.058 million) against which no provision had been made on the basis of exposure being guaranteed by the Government as stated in Annexure V "Guidelines in the matter of classification and provisioning of assets" of Prudential Regulations R-8 of Corporate / Commercial Banking.

This includes non-banking assets acquired under satisfaction of claim in relation to KEL's exposure. These assets comprise of land measuring 14.125 acre, building structure and power plant. The project is situated at Kamoki, District Gujranwala, Punjab, Pakistan.

Considering the strategic importance of KEL, consequent to transfer of the said assets in Company's name the management presented a Management Plan, highlighting all aspects, regarding the Power Project Assets to the Board of Directors. In continuation to the efforts made for the disposal, management appointed M/s. Iqbal A. Nanjee for a new valuation as at 31 December 2019. As per the new valuation the assessed value of these assets were Rs.2.531 billion (31 December 2019: Rs.2.531 billion) whilst forced sale value was Rs.1.570 billion (31 December 2019: Rs.1.570 billion). However, the surplus on revaluation on the non-banking assets has not been recorded in these financial statements on prudent basis.

- 24.3 Other contingent liabilities
- 24.3.1 In financial year 2014, the Company received the appeal effect orders with respect to the Appellate Tribunal Inland Revenue (ATIR) orders dated 20 February 2013 in relation to tax years 2004, 2005, 2006 and 2008 where the outcome was in favour of the Company in relation to issues of loans and advances written-off, apportionment of expenditure and loans to executives/officers and the resulting refunds were adjusted against the tax liability for the tax years 2009 and 2010. Based on the decision of ATIR, overall resulting relief and brought forward losses, there was 'nil' additional tax liability remaining for tax years 2009 and 2010. In June 2015, the Additional Commissioner Inland Revenue issued orders under section 221/124 of the ITO for the tax years 2003 to 2010 to give the appeal effect of the ATIR order. Upon Company's rectification application, a rectified order was issued which resulted in a refund of Rs.122.777 million in tax year 2010. The Tax department has filed the references before Honorable High Court of Sindh against the order of ATIR.
- 24.3.2 For the tax year 2011, Deputy Commissioner Inland Revenue (DCIR) vide order dated 30 August, 2013 passed under section 122(1) read with section 177 of Income Tax Ordinance (ITO) issued the amended assessment order and raised a demand of Rs.84.392 million. The demand mainly pertains to additions made for apportionment of expenses to dividend income/capital gains/(losses), disallowance of interest payable on accrual basis, provision for loans and advances and loss on termination of leased assets etc. The Company filed a refund claim of Rs.70.53 million for the tax year 2011 through a revised tax return. The Company filed an appeal with Commissioner Inland Revenue Appeals on 14 October 2013. The CIR (A) disposed the appeal vide his order No. 22 dated 26 December 2016. In relation to the said appeal, CIR (A) confirmed the treatment of DCIR on certain issues, whilst few matters were decided in favour of the Company. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed in addition to a rectification application on 02 March 2017. The appeal is pending before ATIR and has not been fixed yet.
- 24.3.3 For the tax year 2013, the Company received a tax demand of Rs.24.3 million on 11 November 2014 vide order under section 122 (5A) of the ITO. Against this order, rectification application was filed vide letter T-2798/2012 dated 12 December 2014 wherein it has been highlighted that the issue of apportionment of expenditure against dividend income and capital gain has been decided in favour of the Company by ATIR. Also, the Tax department did not consider the payment of tax of Rs.13.47 million. In June 2015, a rectification order under section 221 of the ITO was passed by the Additional Commissioner Inland Revenue to give effect of apportionment of financial charges and tax credits. Consequently the tax department revised its tax demand and reduced it to Rs.13.198 million. The Company filed an appeal with Commissioner Inland Revenue Appeals (CIRA) on 22 December 2014. The CIR (A) disposed the appeal vides his order No. 23 dated 26 December 2016. In relation to the said appeal, the CIR (A) confirmed the treatment of the ACIR on certain issues whilst few matters were decided in favour of the Company. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed in addition to a rectification application on 02 March 2017. The appeal is pending before ATIR and has not been fixed yet.
- 24.3.4 For the tax year 2014, the ACIR passed an order wherein he demanded tax of Rs.57.866 million disallowing the provision for non-performing loan and advances, apportionment of financial and administrative expenses against dividend income and capital gain, penalty imposed by the State Bank of Pakistan, treated the expenditure incurred on privately placed TFCs as capital expenditure and charged WWF. The Company filed an appeal with Commissioner Inland Revenue Appeals (CIRA) on 22 November 2016. The CIR (A) disposed the appeal vides his order No. 13 dated 16 January 2017. In relation to the said appeal, the CIR (A) confirmed the treatment of the ACIR on certain issues whilst few matters were decided in favour of the Company. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed on 02 March 2017. The appeal is pending before ATIR and has not been fixed yet.
- 24.3.5 For the tax year 2015, the ADCIR passed an order wherein he demanded tax of Rs.46.669 million disallowing the provision for non-performing advances, Write off against KSE-TREC and loss on sale of non-banking assets, apportioned the financial and administrative expenses against dividend income and capital gain, disallowed penalty imposed by the State Bank of Pakistan and treated the expenditure incurred on privately placed TFCs as capital expenditure, whilst treatment on certain matters were decided in favour of the Company. Therefore, an appeal before CIR(A), to contest the various treatments adopted in the above mentioned order issued by ADCIR, has been filed on 16 April 2019.
- 24.3.6 For the tax year 2017, the ADCIR passed an order under section 122(1)/(5) of the Ordinance on September 30, 2019. As a result of the order passed there is no change in the tax liability. However, loss declared as per return Rs.611.559 million reduced to Rs.133.227 million. In the order passed DCIR disallowed the provision for non-performing advances, apportioned the financial and administrative expenses against dividend income and capital gain, board meeting expenses and treated the expenditure incurred on privately placed TFCs as capital expenditure, whilst treatment on certain matters were decided in favour of the Company. Therefore, an appeal before CIR(A), to contest the various treatments adopted in the above mentioned order issued by ADCIR, appeal has been filed on 29 October 2019.
 - No provision has been made in these unconsolidated financial statements in respect of above mentioned matters as the management is hopeful of a favourable outcome on these matters considering the appellate history and tax advisor's opinion.
- 24.3.7 The Company, through its lawyer, has challenged in Sindh High Court (SHC) section 2(g)(V), 5(3), 5(4) and 6(1) of the Sindh Workers Welfare Fund Act, 2014 to be unlawful and void ab initio. The Court as an interim measure passed the order that no coercive action shall be taken against the Company till next date of hearing as suit No 610/2017, in which almost 20 Financial Institutions have filed a Composite Suit challenging the same law, requires hearing. At year end, the outcome was still pending.

After reduction in policy rate by 625 bps and then no further change after June 2020, the existing discount rate scenario and further investments in government securities losing incentive; the principal and mark up deferral initiative by SBP shall enable the private sector credit to pick momentum. However, on the other hand, considering the Consumer Price Index (CPI), completion/expiry of SBP relaxations, 2nd wave of COVID-19 and its related impact on existing portfolios, the Company created a provision against contingencies to absorb any adverse movement in interest rate or eventuality. Therefore, in this regard, the Board in its meeting held on 31 December 2020 approved a provision of Rs. 215 million for the contingencies. No deferred tax asset has been recognised in relation to contingencies.

39.14 Funding Policy

The Company funds it annual contribution, based on actual valuation, in quarterly instalments during the year.

39.15 The scheme has various risks associated with it, however, following risks have been considered significant:

Asset volatility	The risk arises when the actual performance of the investments is lower than expectation and thus creating a shortfall in the funding objectives.
Changes in bond yields	The risk arises when the actual performance of the investments is lower than expectation and thus creating a shortfall in the funding objectives.
Inflation risk	The most common type of retirement benefit is one where the benefit is linked with final salary. The risk arises when the actual increases are higher than expectation and impacts the liability accordingly.
Life expectancy / Withdrawal rate	The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

41.3 Remuneration paid to Shariah Board Members

The Company does not have shariah board members, being a conventional financial institution, therefore, there is no remuneration to shariah board.

42 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

42.1 Fair value of financial assets

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised;

Methodology and Valuation Approach

For the purposes of valuation, valuer carried out inspection and survey of the land, building, plant and machinery. They verified the capacity of the Engines and Alternators from their nameplate rating. The plant is mostly second-hand and the engines have run 50/60,000 hours.

Land

The valuer verified the land by examining the land purchase/ ownership documents or copies thereof, apart from physical verification. The valuation of land is based upon prevailing market rates for similar usage without any restrictions for sale, transfers, etc. for large areas and the prevailing market condition at the location. For this purpose the valuer also made inquiries from the local dealers of the area and assessed the value at Rs.56.500 million (31 December 2019: Rs.56.500 million).

Buildings And Civil Works

All civil works were physically inspected to ascertain the type of construction, finishes and present condition. The structures covered are the owned and developed assets on owned land and long leased land holdings. The verification was also made from the architectural drawings and completion drawings as available. The buildings were checked to ascertain the maintenance standard and construction at site in accordance with the drawings. A suitable depreciation factor depending upon the present condition and life of the buildings was applied to arrive at the present assessed value is Rs.150.570 million (31 December 2019: Rs.150.570 million).

Plant and Machinery including Spares

The machinery at the site (including spares) were physically verified as far as possible, according to their description, specification and location. Purchase invoices were used in order to determine the historical cost.

For the purpose of valuation of plant, machinery and equipment, valuer enquired values of second-hand machinery and checked their own archives, apart from the local market, keeping in view the make, model, capacity & present condition of the plant, which resulted in valuation of Rs.1,363.009 million (31 December 2019: Rs.1,363.009 million).

As the machinery items are also lying at the port and segments are distributed into various containers at the Plant site, this will present some problems in assembling and in absence of comprehensive assembly drawings and technical specification / rusting problems, the realisable value will suffer.

At year end 2018, the Company performed an impairment review to ascertain that the carrying amount of the power plant does not exceed its recoverable amount; the review was based on a financial model with various assumptions, as the power plant has not started its operations yet. Considering the assets being non-operational, the management engaged an external valuation expert to assess the value of these assets. As a result of the assessment, the management considered that no impairment on these assets is required for the year ended 31 December 2019, as the revised market/assessed as well as forced sales values based on the report of valuation expert, exceeded their carrying values as at 31 December 2019. Consequently, as per new valuation at year end the assessed value is Rs. 2,530.518 million (31 December 2019: Rs. 2,530.518 million).

Management of the Company, during the year, after critically evaluating its options finalized the terms of restructuring deal for the disposal of these non-banking assets with a specialized engineering firm. Under the arrangement, both the parties agreed to enter into a business venture whereby the assets of KEL would be used for setting up of captive power plants to be used for industrial units through power purchase agreements on 'Build Own Operate' or 'Build Own Operate Transfer' basis.

As per the agreement, the total consideration will be paid from the power plant cashflows to be received time to time and on such dates and with such amounts as mutually agreed by the parties. The parties involved, currently, negotiating the terms of power purchase agreement (PPA) with identified buyers which will become the basis for relevant PPAs expected to be signed in due course accordingly.

46.1 CAPITAL ASSESSMENT AND ADEQUACY

46.1.1 Capital adequacy

SBP's regulatory capital guidelines under Basel III allow for three tiers of capital. Common Equity Tier I capital includes common shares and retained earnings. Pak Libya currently does not hold any instruments in Additional Tier 1 or Tier 2 capital. The authorised share capital of the Company is Rs.10,000 million and the paid-up capital is Rs.7,871,780 million consisting of 787,178 shares with a par value of Rs.10,000 per share.

Company's regulatory capital is divided into three tiers.

- * Common Equity Tier 1 capital (CET1), which includes fully paid up capital and statutory reserves as per the financial statements and unappropriated loss after all regulatory adjustments applicable on CET1.
- There is no amount for Additional Tier 1 Capital (AT1) of the Company.
- * Tier 2 capital includes revaluation reserves on account of unrealised gain on available-for-sale investments and general provisions for loan losses (up to a maximum of 1.25 % of credit risk weighted assets).

The table below illustrates the following approaches that are adopted at Pak Libya for capital requirements calculation under Basel III in relation to the various risk types under Pillar 1:

Credit Risk Market Risk Operational Risk Standardized Approach Standardized Approach Basic Indicator Approach

Minimum capital requirement

SBP has prescribed that the minimum paid-up capital (free of losses) for DFI is required to be maintained at Rs.6 billion and ratio of total regulatory capital to risk weighted asset is to be maintained at or above 10% alongwith Capital Conservation Buffer (CCB) of 1.5% which is reduced from 2.5% as a result of COVID-19 pandemic. The paid-up capital (free of losses) of the Company as of 31 December 2020 amounted to Rs.5.737 billion, which is marginally below the minimum capital requirement of Rs.6 billion. The Board of Directors of the Company has approved the financial projections for the next 5 years, envisaging a capital injection plan which is aimed to comply with minimum capital requirement, enhance the risk absorption capacity and future growth and expansion in business prospects of the Company. During the year, the Company has increased its paid-up capital to Rs.7.871 billion and is following up for remaining Rs.135 million from Government of Pakistan, Government of Libya has already injected the entire equity, its remaining amount of Rs.135 million has been treated as advance against shares. The Company based on these developments, requested SBP for MCR extension.

Capital management

A strong capital position is essential to the Company's business strategy and competitive position. The Company's capital strategy focuses on long-term stability, which aims to build and invest in core business activities. The Company seeks to maintain adequate levels of capital in order to:

- comply with the capital requirement set by the regulators of the Company;
- safeguard Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders;
- · acquire, develop and maintain a strong capital base to support the development of its business activities;
- · support the underlying risks inherited in the core business activities; and
- · be able to withstand capital demands under market shocks and stress conditions.

The Company carries out Capital Planning annually to ensure the sufficiency of capital keeping in view the business strategy, expected growth, regulatory requirements, Basel III guidelines and risks associated with the business operations. The capital planning is normally undertaken for the horizon of next three to five years. The plan takes the following into account:

- · current capital requirement
- growth of core financing and investment business based on activities plans of the various business units (Corporate & Investment Banking, SME-Retail banking Treasury and Capital Market)
 - the funding structure and sources of funding, liabilities and equity to support the asset growth taking into consideration the need to maintain strong liquidity position based on Basel III guidelines
- · maintenance of regulatory capital requirements and capital adequacy ratios

The Company has a comprehensive Internal Capital Adequacy Assessment Process (ICAAP). The Company's ICAAP covers the capital management, sets the process for assessment of the adequacy of capital to support current and future activities / risks and a report on the capital projections for a period of three to five years. The ICAAP report is produced on an annual basis and is approved by the Board of Directors.

Under the ICAAP methodology, the following risk types are identified and measured:

- · risks covered under Pillar I (credit risk, market risk and operational risk)
- · risks not fully covered under Pillar 1 (Residual Risk)
- risks covered under Pillar 2 (concentration risk, interest rate risk, liquidity risk, reputational risk, strategic/business risk)

The Company has also implemented Stress Testing Framework as per the SBP guidelines. This involves the use of various techniques to assess the Company's susceptibility to plausible yet extreme stress scenarios. The stress tests cover shocks related to credit risk, interest rate risk, exchange rate risk, equity price risk, liquidity risk and operational risk. The stress tests are performed quarterly and results are reported to Management and Board of Directors through respective Risk Management Committee.

Scope of applications

The Basel III Capital Regulations (Basel III) are applicable to Pak Libya Holding Company (Private) Limited (Pak Libya) in line with the guidelines issued by State Bank of Pakistan (SBP).

SBP has issued the framework and guidance regarding implementation of the capital reforms under Basel III - which are effective from 31 December 2013. Accordingly, the Company's Risk Weighted Assets (RWA), total capital and related ratios are calculated under the Basel framework.

Basel-III framework enables a more risk-sensitive regulatory capital calculation along with tightening of capital requirements, raising the quality, consistency and transparency of capital base to promote long term viability of the Company. As the Company carry on the business, it is critical that the Company is able to continuously monitor the exposure across entire organization and aggregate the risks so as to take an integrated approach/view. Maximization of the return on risk-adjusted capital is the principal basis to be used in determining how capital is allocated within the Company to a particular segment of business.

Significant subsidiary

Pak Libya had wholly owned subsidiary named Kamoke Powergen (Private) Limited until November 2020. During the year, the Company has disposed off 80% its shareholding and management control in KPL. Furthermore, the Company does not have significant investment in any insurance entity.

47. RISK MANAGEMENT

The Company has an independent risk management function and developed risk management framework to continuously manage and mitigate risks emanating from the regular course of its operational and financial activities. The risk management framework and policies of the Company are guided by specific objectives to ensure that comprehensive and adequate risk management policies are established to mitigate salient risk elements in the operational facets of the Company. The Board of Directors provides the strategic direction for effective risk management and ensures that a robust risk management framework is in place including the required human resources, policies, procedures and systems. The Board's Risk Management Committee along with various management committees supports Board of Directors in order to achieve this task. It involves identification, measurement, monitoring and controlling risks with a view to ensure that:

- Adequate capital is available as a buffer;
- Exposures remain within the limits prescribed by the Board of Directors; and
- Risk taking decisions are in line with the policy guidelines, business strategy and objectives set by the Board.

Scope of application of Basel III framework

State Bank of Pakistan, through BPRD circular no. 06 dated 15 August 2013, requires Banks/DFIs to report the Capital Adequacy Ratio (CAR) under the Basel III framework with CAR requirements increasing in a transitory manner through 2019.

The Company is exposed to a number of risks, which it manages at different levels.

The main categories of risk associated to / with the Company are as follows:

Credit risk

The risk of losses resulting from counterparties' failure to meet all or part of their obligations towards the Company. The Company has adopted Standardized Approach for credit risk reporting under Basel III framework.

The Company has established an appropriate credit risk structure and culture whereby policies are reviewed and revamped to maintain sound credit granting procedures, maintaining appropriate credit administration, measurement, monitoring processes and adequate controls.

Risk management structure facilitates the Credit approval function by its Internal Credit Risk Rating model through which an appropriate risk level of the borrower / counterparty is assessed for credit sanctioning and disbursement.

The Company manages credit risk through:

- Establishment of acceptable risk appetite and tolerance levels;
- Sound procedures, tools and controls for the management of risk assets and credit documentation;
- Target market planning and overall market intelligence; and
- Accurate and detailed information about the borrower, its financial position and operations.

Market risk

The risk of losses resulting from the variance in the market value of the Company's assets and liabilities owing to changes in market conditions. The Company has adopted Standardized Approach for market risk reporting under Basel III framework.

Market risk measures and controls are applied at the portfolio level and limits and other controls are applied to particular books and to specific portfolios. Controls and established parameters are applied to prevent any undue risk concentrations in the trading book and include controls on exposure to individual market risk factors and on positions in securities of individual issuers.

The principal market risk in respect to the Company's assets and liability management is primarily associated with the capital market exposure and the maturity and repricing mismatches of its assets and liabilities. The Board is responsible for reviewing and recommending all market risk policies and ensures that sound market risk and effective risk management systems are established and complied with regulatory guidelines.

Operational risk

The risk of losses resulting from deficient or erroneous internal procedures, human or system errors, or external events. The Company has adopted Basic Indicator Approach for operational risk reporting under Basel III framework.

The Company has in place a duly approved operational risk policy, manual, disaster recovery system (DRS) and a business continuity plan (BCP). These are continuously reviewed to strengthen operational controls prevailing in the Company.

Operational risk policy and manual set minimum standards and require all business units to identify and assess risks through loss data collection, Risk Control Self Assessment (RCSA) and key risk indicators (KRIs). The departments are responsible for day-to-day monitoring of operational risks and for limiting losses as a result thereof. The department is responsible to report any potential deviation giving rise to operational risk events in the Company.

The Company is in the process of continuously improving its internal controls which aids in strengthening the Operational Risk Management of the Company. In this regards, the Company maintains a detailed internal control over financial reporting (ICFR) documentation.

Liquidity risk

The risk arising due to failure in raising funds at reasonable cost within the required time duration to finance the Company's operations and meet its liabilities when these become due is categorised as liquidity risk.

The Company's approach to liquidity risk management is to ensure as far as possible that it will always have sufficient liquidity to meet its liabilities when due. The Liquidity Management Policy is formulated keeping in view SBP's guidelines on risk management and Basel III principles on sound liquidity management. The Company has also formulated Liquidity Risk Management policy as per SBP's guidelines. The risk management division uses different tools for identifying, assessing, measuring and controlling liquidity risk and periodically reports to senior management and risk management committees. The Company is also preparing leverage ratio report on quarterly basis for senior management, risk management committees and regulator.

The Basel Committee on Banking Supervision has developed two standards intended for use in liquidity risk supervision: the "Liquidity Coverage Ratio" and "Net Stable Funding Ratio".

The LCR is a regulatory requirement set to ensure that the Company has unencumbered high quality liquid assets to meet its liquidity needs in a 30-calendar-day liquidity stress scenario. The Company monitors and reports its liquidity position under the State Bank of Pakistan (SBP) guidelines on Basel III Liquidity Standards implementation in Pakistan. The LCR became effective on 31 March 2017, with currently no minimum ratio requirement in Pakistan for DFIs, however, the Company ratio stood at 72% on an average during the year 2020 while the ratio stood at 180% as on December 31, 2020.

The Net Stable Funding Ratio is the regulatory metric for assessing the Company's structural funding profile. The NSFR is intended to reduce long-term funding risks by requiring banks/DFIs to maintain a stable funding profile in relation to their on- and off-balance sheet activities. The ratio is defined as the amount of Available Stable Funding (ASF) (the portion of capital and liabilities expected to be a stable source of funding), relative to the amount of Required Stable Funding (RSF) (a function of the liquidity characteristics of various assets held). Banks/DFIs are expected to meet the NSFR requirement of at least 100% on an ongoing basis from 31 December 2017, however, the Company remained above the required level while maintaining the ratio at 147% as on 31 December 2020.

The management is responsible for managing liquidity profile of the Company although strategic management of liquidity has been delegated to Asset & Liability Committee (ALCO). The ALCO of the Company deliberate and recommend liquidity strategy ensuring that appropriate policies and procedures are in place to control and constrain liquidity risk. It is also responsible for ensuring that the Company has adequate information systems for measuring, monitoring, controlling and reporting liquidity risk.

47.1 Credit risk

Credit risk management objectives and policies

Credit risk refers to the risk of financial loss arising from defaults by counterparties in meeting their obligations. Exposure to credit risks for the Company arises primarily from the lending and investment activities.

Credit exposures include both individual borrowers, corporates and groups of connected counterparties and portfolios in the Company's banking/trading books.

The management of credit risk is governed by credit risk management policies and procedures approved by the Board and management respectively. The procedures and policy guidelines spell out relevant process flow, approval authorities, limits, risks, credit ratings and other matters involved in order to ensure sound credit granting and approving standards in compliance with the Prudential Regulations and Risk Management Guidelines of the State Bank of Pakistan.

Appropriate levels of facilities are approved by the Board of Directors through Policy Guidelines. The Executive Committee (EC) approves facilities of upto the limit defined in Credit Policy guidelines based on the internal or external risk rating of the borrower. The facilities exceeding this limit require approval from the Board of Directors on recommendation of the EC. Credit Committee (CC) considers and recommends the said facilities to EC upon identifying key opportunities and risks prevalent in taking requisite exposure towards the borrower / counterparty.

The Company currently uses Standardised Approach for computing capital charge on credit risk weighted assets. Currently, the Company does not employ Credit Risk Mitigation (CRM) approach as there is no hedging (in whole or in part) by a collateral posted by the third party on the behalf of the counterparty.

Credit risk rating

Credit risk rating is an important tool in monitoring and controlling credit risk. In order to identify changes in risk profiles at early stages, credits with deteriorating ratings are subject to additional oversight and monitoring.

The Internal Credit Risk Rating System (ICRRS) is intended to reflect the overall risk profile of the borrower / guarantor / counterparty. Risk ratings are assigned according to the perception of risk on a numerical scale, determined within the qualitative and quantitative set of parameters and variables encompassing the risk levels of the borrower / guarantor / counterparty. The Credit scoring in the ICRRS is being conducted by Corporate and Investment Banking Department/ SME & Retail Banking Department which is reviewed by the Risk Management Function on periodic basis and from time to time upon receiving the required information and documents of the credit proposal/obligor for its credit approval.

Objective of Internal Credit Risk Rating (ICRR)

Credit ratings are aimed at achieving one or more of the following:

- Internal risk reporting;
- Portfolio management; and
- Setting of credit risk concentration limits.
- identifying key financial trends.

The Company constantly updates and improves upon its rating system to facilitate prudent lending decisions along with proactive and effective identification and monitoring of potential credit risks emanating from the lending activities of the Company.

The Company also uses and give due weightage to external rating while evaluating the risk. The Company considers external ratings assigned by external credit rating agencies including PACRA and / or VIS.

Disbursements mean the amounts disbursed by banks either in Pak Rupee or in foreign currency against loans.

"Disbursements of Province/Region wise" refers to the place from where the funds are being issued by scheduled banks to the borrowers.

47.2 Market Risk

Market risk refers to the impact on the Group's financial condition resulting from future price volatility or adverse movements in the value of assets contained in its trading book and / or investment portfolio. The principal market risk in respect of the Group's assets and liabilities is primarily associated with the maturity and repricing mismatches of its assets and liabilities and equity price risk. The risk emanating from any potential changes in market prices, due to changes in the interest rates, foreign exchange rates and equity prices are duly identified and accounted for.

A trading book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book, financial instruments must either be free of any restrictive covenants on their tradability or able to be hedged completely.

Transaction undertaken by the financial institution for the banking book means any position or financial instrument held by Group in the normal course of business, not for trading purpose, or financial instrument that the financial institution intends to hold until maturity. All investment excluding trading book are considered as part of banking book which includes Available-for-Sale, Held-to-Maturity and Strategic Investments. Due to diversified nature of investments in banking book, it shall be subject to interest rate and equity price risk.

The Company has a sound framework for Market Risk management with the Treasury Investment Policy and Market Risk Management policies duly approved by the Board.

The Market Risk Management framework of the Company comprises of exposure limits, a series of stop loss limits and potential loss limits recommended by Asset and Liability Committee (ALCO) / Investment committee of the Company to ensure that front line risk-takers do not exceed or breach the defined boundaries set by the management. Limit management is a control mechanism to ensure that all business activities are conducted in compliance with the risk management guidelines and policies. Gap analysis is conducted on regular basis in order to assess the quantum of market risk and liquidity position of the Company. The limits are set and reviewed regularly taking into account number of factors, including market trading, liquidity of the instruments, returns and Company's business strategy.

Management of interest rate risk of the banking and / or trading book is primarily focused on interest cum fair value through Re-pricing Gap Analysis and Fair Value Sensitivity. The management of interest rate risk of the trading book is achieved through mark-to-market practice. On quarterly basis, the Stress Test reports are being prepared for senior management, risk management committees and regulator to have an accurate understanding of Company's risk tolerance levels.

The description of portfolios covered under the approach shall also be detailed along with the capital charge required there against,

47.3 Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

PLHC has a minimal appetite for operational risk and seeks to minimize risk from the impact of unforeseen operational failures within the organization. However, any unforeseen event beyond the risk appetite level might be a cause or consequence of operational loss, whenever it affects or impacts adversely on PLHC's tolerance level in terms of PLHC's capital, profitability or risk profile.

Operational risk tolerance level consists of zero tolerance level for fraud, forgeries and theft, strict compliance for avoiding any regulatory and legal risk emanating from regulatory, legal and professional requirements, avoidance of any deviations from approved policies and procedures of respective departments thereby ensuring an acceptable assessment, with a positive risk-reward trade-off, of the control environment and ensuring proper arrangements to avoid system failures or information and data security breaches.

Operational risk may arise through various events, including internal fraud, external fraud, employment practices and workplace safety, clients, products, & business practices, damage to physical Assets, business disruption & system failures and execution, etc. The causes, consequences, effect and impact are all mapped to mitigate the occurrence of such events in future.

The ultimate accountability for operational risk management rests with the board with all business and support functions forming an integral part of the overall operational risk management framework with adequate support from line management in order to establish processes for the identification, assessment, mitigation, monitoring and reporting of operational risks.

The tools and techniques used for operational risk identification, assessment and monitoring comprise of internal loss data collection and analysis and risk control and self-assessment tools by each business unit and support function.

In addition, the Disaster Recovery and Business Continuity Plan enables the company to operate as a going concern and minimize losses in the event of severe business disruption at the main site(s). These alternate arrangements are periodically reviewed and tested for any contingencies that may arises due to an internal or external event leading to business disruption and / or failure.

Considering the current epidemic of COVID-19, the global economy will be affected and a lot more efforts will be required to contain the disease, its cure and recovery of overall actual and potential financial losses around the globe. In this situation, Pakistan would be no exception and will bear its share of the crises. Consequently, all sector of the of our economy will continue to show subdued activities which will impact the banking sector as well; our operational cash flows and financial conditions could also be negatively affected by the following:

- . If employees are quarantined as the result of exposure to COVID-19, this could result in disruption of operations and impact economic activity
- Similarly, operational issues resulting from the rapid spread of COVID-19 in Pakistan may have a material effect on our business and results of operations

At Company level, the management has taken a number of measures for Business Continuity Planning (BCP) which includes a fully functional Disaster Recovery (DR) site. Further, considering the best practice, skeleton staff is being maintained to curb the spread of COVID-19, and work from home option has been adopted. Further, SBP has also been approached for the relaxation in certain clauses of the Code of Conduct for Treasuries of Banks, DFIs and PDs to allow the Company to perform/execute Capital and Money Market deals/transactions from Off-Premises other than Primary and DR site as required under Chapter I, Para 1 of Code of Conduct as well as usage of Wireless Communication devices and waiver of Chapter 5, Para 4 (i.e. recording of telephone conversations) of the said Code of Conduct. Moreover, various management committees have also been set up online and discussing proposals through teleconferencing at relevant forums. A focal person has been dealing with the regulator on continuous basis. At Country level, the longer the lockdown approach to managing this risk continues, the deeper and longer-lasting the economic slowdown will be. However, the federal government and SBP has been active in decision making and providing relief to various sectors by introducing financing schemes, relief packages, reduction in policy rate and petroleum prices, relaxation in regulations to ease out the current situation.

47.4 Liquidity Risk

Liquidity risk is the potential for loss to an institution arising from either its inability to meet its obligations or to finance its commitments as they fall due without incurring unacceptable cost or losses. In addition, liquidity risk may be a result of a financial institution's inability to unwind or offset underlying risks from assets it currently holds or a situation, which will force the financial institution to sell its assets at a loss as the assets are illiquid or the market is suffering a liquidity crunch.

The Company's approach towards liquidity risk management is to ensure as far as possible that it will always have sufficient liquidity to meet its liabilities when due. The Liquidity Management Policy is formulated keeping in view SBP's guidelines on risk management and Basel III principles on sound liquidity management. The Company has also formulated Liquidity Risk Management policy as per SBP's guidelines. The Risk Management Division uses different tools for identifying, assessing, measuring and controlling liquidity risk and periodically reports to senior management and risk management committees. The Company is also preparing leverage ratio report on quarterly basis for senior management, risk management committees and regulator.

The management is responsible for managing liquidity profile of the Company although strategic management of liquidity has been delegated to Asset & Liability Committee (ALCO). The ALCO of the Company deliberate and recommend liquidity strategy ensuring that appropriate policies and procedures are in place to control and constrain liquidity risk. It is also responsible for ensuring that the Company has adequate information systems for measuring, monitoring, controlling and reporting liquidity risk.

The Company has established a robust liquidity Risk Management framework, which ensures sufficient liquidity, including a cushion of unencumbered, high quality liquid assets to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Company has clearly articulated liquidity risk tolerance level that is appropriate for business strategy and manage liquidity risk within the risk tolerance limit while ensuring that the Company maintains sufficient liquidity. The liquidity management framework provides the Board, Senior Management and other appropriate committees with timely information on the liquidity position of the Company. The Company has also incorporated liquidity costs, benefits and risk in the internal pricing, performance measurement and new product approval process for all significant business activities, thereby aligning the risk taking incentives of individual business lines with the liquidity exposures.

Pak-Libya has two available sources to raise funds for meeting the liquidity requirements to cater the business operations. These funding sources comprises of primary market and secondary market. Under the primary market the corporate or non banking sources are taped whereas the secondary market source is mainly the banks & financial institutions. Since Pak Libya may raise funds against CoIs, so the reliance of raising funds through Clean borrowing would be based on wholesale funds as well as retail deposits. In order to increase funding base, Pak Libya continues to explore other funding sources including secured long term borrowings from FIs.

In order to assess liquidity levels for PLHC's needs, the Company uses different parameters that set minimum liquidity buffers for both asset-based liquidity and total liquidity. Pak-Libya believes that in order to reduce liquidity risk, access to reliable funding sources with relatively low liquidity risk is of high importance than volatile sources of fund. The distinction between reliable and volatile sources is based on prudent liquidity planning. Apart from liability side, liquidity risk is also mitigated by maintaining the liquidity on the asset side of the balance sheet which mostly dependent on unencumbered high quality liquid assets.

The Company conducts stress tests on a regular basis for a variety of short term and protracted institution-specific and market wide scenarios to identify sources of potential liquidity strain and to ensure that current exposures should remain in accordance with the established liquidity risk tolerance level.

The Asset & Liability Committee is responsible for reviewing and monitoring of Liquidity Position in its meeting on regular basis and communicates its views and recommendations to the respective front office(s) and Executive Committee. Besides, the liquidity aspects are also deliberated in the meetings of Board's/ Management's Risk Management Committee (BRMC & MRMC) on regular basis.

The Company has well-defined Contingency Funding Plan in-place. The objective of the contingency plan is to ensure that when any of the indicators or tools being monitored by ALCO enters into the warning or stress zone, corrective measures/plans would be in place. The monitoring of liquidity position and funding strategies is an ongoing activity, but any change must be noted and reported with respect to unexpected events, economic or market conditions, earnings problems or situations beyond its control causing either a short or long term funding crisis.

The Company's LCR is mainly dependent on the availability of high quality unencumbered government securities along with short term REPOs and clean borrowings to manage liquidity position of the company. Being DFI, the Company is largely dependent on short term as well as long-term borrowing from financial institutions, which affects LCR position.
