## Business Performance and Future Outlook

The Group witnessed a tough year considering volatility in capital market, impact of continuous increase in interest rates on money market and delay in implementation of decisions of strategic nature. Each of our business units contributed to support the management's business strategy however the overall contribution was not sufficient to generate profitability. The margins have shrunk and financing costs of non-yielding/non-performing assets have increased considerably.

The bullish trend could not hold its ground for longer term and the bourse remained extremely volatile after the reclassification of Pakistan from Frontier to Emerging Market Index in May 2017. During the year, uncertainty in the market, low trading volumes and high weighted average cost of available for sale (AFS) equity portfolio of the Company resulted in an impairment of PKR 168.18 million on its investments in shares categorised under AFS.

Resultantly, the Group incurred a loss before tax of PKR 260.68 million. The management considers these investments, in blue-ship stocks, will rebound once the market sentiments get stabilised.

An investment in listed term finance certificates (TFC) amounting to Rs. 398.58 million comprising 79,955 units, subject to risk of provisioning as the counter party invoked the lock-in clause governed by clause 4.1.1 of the 'Declaration of Trust' to hold the payment till its minimum capital requirement is met. The clause is mandatorily invoked for the time being until its proposed merger. The management has not provided any impairment on the said TFCs on subjective basis considering the repayment behaviour of the Issuer, its financial health and pending approvals. The management is hopeful that the matter will be resolved during the financial year 2019.

In relation to its power plant, non-banking assets acquired in satisfaction of claim, at year end, the Company performed an impairment review to ascertain that the carrying amount of the power plant does not exceed its recoverable amount; the review was based on a financial model with various assumptions, as the power plant has not started its operations yet. The Company is still in the process of getting generation license; however, the management is hopeful in obtaining the license and is in the continuous process of identifying and negotiating with prospective buyers inside and outside the Country.

Subsequent to year end, MoF in its letter No. F.2(1)/NV.IV/2014 dated 15 January 2019 stated that Finance Division has agreed to the proposal or injection of Rs.1 billion to meet MCR of the Company during financial years 2018-2019 and 2019-2020. The Libyan shareholder has assured that they will support and match MoF action with full confidence.

The additional equity will bring back Company on its track of profitability as it will increase the statutory limits for doing business, enhance the margins due to less reliance on borrowed funds and will increase the loss absorption capacity.

#### **Comments of Auditors in their Audit Report**

The external auditors have added emphasis of matter paragraphs in their audit report. They have drawn attention to:

- a) Note 1.2 to the accompanying consolidated financial statements and stated that the State Bank of Pakistan (SBP), has not granted further exemption to the Company from the required minimum paid-up-capital (free of losses) of Rs. 6 billion and has advised the Company to pursue the case with ministry of finance for equity injection in the Company by the Government of Pakistan.
- b) Note 8.2.7 to the accompanying consolidated financial statements, where the management has disclosed the matter related to the recoverability of Company's investment in term finance certificates (TFC). The ultimate outcome of the matter depends upon various events.
- c) Note 42.2 to the accompanying consolidated financial statements relating to other assets where management has disclosed the recoverability of power plant of Kamoki Energy Limited (KEL) via disposal and value in use. The ultimate outcome of the matter depends upon various events.

The opinion of auditors is not qualified in respect of the above matters (point a-c).

#### **Auditors**

The present auditors M/s Grant Thornton Anjum Rahman, Chartered Accountants (A member firm of Grant Thornton International Ltd) retire and being eligible, have offered themselves for re-appointment. The Audit Committee has recommended re-appointment of auditors for the year ending 31 December 2019 which has been endorsed by the Board of Directors.

#### **Acknowledgements**

On behalf of the Board and the Management, we would like to express our sincere gratitude to the customers and all stakeholders of Pak-Libya for their confidence that they continue to repose in the Company. We would also like to express our appreciation to the shareholders; LAFICO and SBP, including MoF, for their continued support and guidance and to the employees of the Company for their steadfast trust and loyalty.

**Opinion**

We have audited the annexed consolidated financial statements comprising consolidated statement of financial position of **Pak Libya Holding Company (Private) Limited** (the Company) and its subsidiary company (the Group) as at December 31, 2018 and the related consolidated profit and loss account, consolidated statement of comprehensive loss, consolidated cash flow statement and consolidated statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2018, of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan and the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017.

**Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Emphasis of Matter**

We draw attention to the following matters

- i) Refer note 1.2 to the accompanying consolidated financial statements which explains that State Bank of Pakistan (SBP), has not granted further exemption to the Company from the required minimum paid-up-capital (free of losses) of Rs. 6 billion and has advised the Company to pursue the case with ministry of finance for equity injection in the Company by the Government of Pakistan.

- ii) Refer note 8.2.7 to the accompanying consolidated financial statements, where the management has disclosed the matter related to the recoverability of Company's investment in Summit Banks' (counter party) TFC's amounting to Rs. 398.58 million. (The ultimate outcome of the matter depends upon various events. The matter stated there in cannot presently be determined and no provision for any loss that may result has been made in the unconsolidated financial statements, for the reasons discussed in the aforementioned note).
- iii) Refer note 42.2 to the accompanying consolidated financial statements relating to other assets where management has disclosed the recoverability of power plant of Kamoki Energy Limited (KEL) via disposal and value in use. (The ultimate outcome of the matter depends upon various events. The matter stated there in cannot presently be determined and no provision for any loss that may result has been made in the unconsolidated financial statements, for the reasons discussed in the aforementioned note).

Our conclusion is not qualified in respect of above matters.

#### **Information Other than the Consolidated Financial Statements and Auditor's Report Thereon**

The board of directors is responsible for the other information. The other information comprises the information included in the annual report i.e., a more specific description of the other information, such as "the directors' report and chairman's statement," may be used to identify the other information but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the other information; we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan the requirements of Banking Companies Ordinance, 1962 and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going

concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

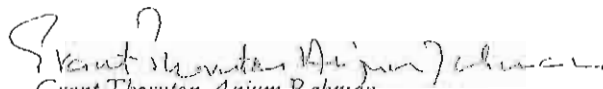

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is **Muhammad Shaukat Naseeb**.

**PAK-LIBYA HOLDING COMPANY (PRIVATE) LIMITED  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2018**

**1. STATUS AND NATURE OF BUSINESS**

The Group comprises of Pak-Libya Holding Company (Private) Limited (the Holding Company) and its wholly owned subsidiary company, Kamoki Powergen (Private) Limited. Brief profile of the Holding Company and its Subsidiary Company is as follows:

**The Holding Company**

**1.1** Pak-Libya Holding Company (Private) Limited (the Company) was incorporated in Pakistan as a private limited company on 14 October 1978. It is a joint venture between the Government of Pakistan and Government of Libya (State of Libya). The tenure of the Company was thirty years from the date of its establishment. The two contracting parties (i.e. both the governments through their representatives) extended the tenure for further thirty years upto 14 October 2038. The objectives of the Company interalia include the promotion of economic growth of Pakistan through industrial development, to undertake other feasible business and to establish and acquire companies to conduct various businesses as may be decided from time to time. The Company is designated as a Development Financial Institution (DFI) under the BPD Circular No. 35 dated 28 October 2003 issued by the State Bank of Pakistan (SBP).

The registered office of the Company is located at 5th Floor, Block C, Finance and Trade Centre, Shahrah-e-Faisal, Karachi, Pakistan. The Company has one sales and service center located at Lahore. Effective 05 August 2012, activities of Islamabad office have been suspended for the time being after review of the business strategy.

**1.2** The State Bank of Pakistan (SBP) through its BSD Circular No. 19 dated 05 September 2008 has prescribed that the minimum paid-up capital (free of losses) for Development Financial Institutions (DFIs) is required to be maintained at Rs. 6 billion. The paid-up capital of the Company (free of losses) as of 31 December 2018 amounted to Rs. 4.071 billion (31 December 2017: Rs. 4.401 billion).

The Board of Directors (BOD) of the Company in its meeting held on 09 December 2012 and 10 December 2012, recommended the shareholders for increase in paid-up capital by Rs. 4 billion in the year 2013. The increase in capital is aimed to comply with minimum capital requirement (MCR) for risk absorption and future growth and business prospects of the Company.

Further, the Chairman of the Company (Libyan Nominee) in the Board meeting held on 26 April 2014 informed that BOD of Libyan Foreign Investment Company (LAFICO) has given approval for the capital injection of Rs. 2 billion with a condition of simultaneous injection of additional capital by Government of Pakistan (GOP).

In this regard, SBP has been reviewing the progress and performance of the Company and the Company has been following up the matter of additional capital injection with the Ministry of Finance (MoF). Considering the performance of the Company, both shareholders in the Annual General Meeting (AGM) held on 15 April 2016 revisited the required additional capital and agreed to reduce the capital injection from Rs. 4 billion to Rs. 2 billion (Rs.1 billion by each shareholder).

The SBP had advised the Company to pursue the matter of capital injection with Finance Division (GoP) and provide specific timeline for equity injection by the GoP in the Company by 31 March 2017. The management of the Company proposed shareholders to inject the additional capital in tranches, for which the timeline has not been decided yet. Further, during the year 2017, the Company had submitted a 3 year plan to SBP to demonstrate its ability to meet the MCR through organic growth, as advised by the SBP. Subsequently, MoF vide its letter no. F.2(1) Inv-IV/2014 dated 16 January 2018 had stated that in the last quarter of current Financial Year, after a review of fiscal space, injection of equity would be given due consideration. Consequently, SBP vide its letter No. BPRD/BA&CP/657/5114/2018 dated 07 March 2018 granted relaxation in MCR till 30 June 2018. Recently SBP vide its letter No. BPRD/BA&CP/657/25618/2018 dated 20 November 2018 reiterated for a definitive timeline for equity injection in the company by GoP for meeting the MCR shortfall. Subsequent to year end, MoF in its letter No. F.2(1)/NV.IV/2014 dated 15 January 2019 stated that Finance Division has agreed to the proposal or injection of Rs.1 billion to meet MCR of the Company during financial years 2018-2019 and 2019-2020. The Company is in a process of updating the Libyan shareholder and finalising the date.

**Subsidiary Company**

**1.3** Kamoke Powergen (Private) Limited (the Company) (KPL) was incorporated in Pakistan as a private limited company on 07 February 2017. The Company is wholly owned subsidiary of Pak Libya Holding Company (Private) Limited. The Company has been established as a Special Purpose Vehicle (SPV) and is in the process of applying for the power generation license from NEPRA to increase the salability of assets of Kamoki Energy Limited (KEL). Approval from State Bank of Pakistan (SBP) was obtained for the formation of KPL which was granted vide letter No. BPRD/RPD/27366/16 dated 16 November 2016. The registered office of the Company is located at 5th Floor, Block C, Finance and Trade Centre, Shahrah-e-Faisal, Karachi, Pakistan.

The SBP through its BSD circular No. 10 dated 26 August 2002 has deferred the implementation of IAS 39 'Financial Instruments: Recognition and Measurement', and IAS 40 'Investment Property' for Non-Bank Financial Institutions (NBFIs) in Pakistan. The SECP has deferred applicability of IFRS-7 "Financial Instruments: Disclosures" on banks through S.R.O 411(1)/2008 dated 28 April 2008. Accordingly, the requirements of these IASs have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

The SBP vide BPRD circular No. 2 dated 25 January 2018 has issued revised format of annual financial statements. These consolidated financial statements have been presented in accordance with such revised forms.

These financial statements represents separate financial statements of the Company. The consolidated financial statements to the DFIs and its subsidiary is issued separately.

### 3. BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except that certain investments have been stated at revalued amounts in accordance with the directives of the SBP.

These consolidated financial statements represents the separate financial statements of the Company in which investment in subsidiary is stated at cost. The consolidated financial statements of the Company and its subsidiary are presented separately.

### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of these consolidated financial statements are the same as those applied in the preparation of the annual audited consolidated financial statements for the year ended 31 December 2017 other than those disclosed in note 4.1 below:

#### 4.1 New Standards, Interpretations and Amendments

The Group has adopted the following accounting standards and the amendments and interpretation of IFRSs which became effective for the current year:

| Standard or Interpretation   | Effective Date<br>(Annual periods beginning<br>on or after) |
|--|---|
| IFRS 2 - Classification and Measurement of Share-based Payment Transaction<br>(Amendments to IFRS 2) | 01 January 2018   |
| IFRS 1 and IAS 28 - Annual Improvements to IFRSs 2014-2016   | 01 January 2018   |
| IFRIC 22 - Foreign Currency Transactions and Advance Consideration                                   | 01 January 2018   |

Adoption of the above revisions, amendments and interpretations of the standards have no significant effect on the amounts for the year ended 31 December 2017 and 31 December 2018.

#### Standards, amendments to published standards and interpretations that are effective but not relevant

The other new standards, amendments to published standards and interpretations that are mandatory for the financial year beginning on 01 January 2017 are considered not to be relevant or to have any significant effect on the Company's financial reporting and operations and are therefore not presented here.

#### 4.2 Basis of consolidation

##### Subsidiary

The parent consolidated the investees in which it controls the composition of the Board or exercises or controls more than one-half of its voting securities either by itself or together with one or more of its subsidiary companies.

Subsidiary Company is consolidated from the date on which more than one-half of the voting securities are transferred to the parent or power to control the entity is established and excluded from consolidation from the date of disposal or when the control is lost.

The financial statements of subsidiary company are prepared for the same reporting period as the parent for the purpose of consolidation using consistent accounting policies.

The assets, liabilities, income and expenses of subsidiary have been consolidated on line by line basis and the carrying value of investment in subsidiary held by the parent is eliminated against equity in the financial statements. Inter-company balances have been eliminated.

#### 4.3 Cash and cash equivalents

Cash and cash equivalents comprise cash and balances with treasury banks, balances with other banks and placements with financial institutions having maturities of three (3) months or less.

#### 4.4 Revenue recognition

Revenue is recognized to the extent that the economic benefits associated with a transaction will flow to the Company and the revenue can be reliably measured.

Dividend income is recognised when the Group's right to receive payment is established.

Gain on sale of securities is recognised at the time of sale of relevant securities.

Project evaluation, arrangement and front end fee are accounted for on receipt basis.

Income from loans, term finance certificates, sukuks, debentures, bank deposits, government securities and reverse repo transactions are recognised on accrual basis using the effective interest method except where recovery is considered doubtful in which case the income is recognised on receipt basis.

Premium or discount on debt securities is amortised using the effective interest method and taken to consolidated profit and loss account.

The Group follows the finance method in recognising income on lease contracts. Under this method the unearned income i.e. the excess of aggregate lease rentals and the estimated residual value over the cost of the leased asset is deferred and then amortised over the term of the lease, so as to produce a constant rate of return on net investment in the lease.

#### 4.5 Advances including net investment in finance leases

Advances are stated as net of provisions for bad and doubtful debts, if any, which are charged to the consolidated profit and loss account currently. Advances are written off where there is no realistic prospect of recovery.

The Group determines the provisions against advances on a prudent basis keeping in view the stipulations of the prudential regulations issued by the SBP. The provision is charged to consolidated profit and loss account.

##### Leases

When substantially all risks and rewards related to ownership of the assets are transferred to the lessee, such leases are classified as finance lease.

A receivable is recognised at an amount equal to the present value of the lease payment. The difference between gross receivable and the present value of the receivable is recognised as unearned finance income.

##### Provisions

###### *Specific*

Specific provision against funded loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the consolidated profit and loss account.

###### *General provision*

General provision is maintained on consumer financing portfolio in accordance with the requirements of Prudential Regulations for Consumer Financing issued by SBP and charged to the consolidated profit and loss account.

#### 4.6 Investments

Investments other than those categorised as held-for-trading are initially recognised at fair value which includes transaction costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the consolidated profit and loss account.

The Company has classified its investments, except for strategic investment in joint venture, into 'held-for-trading', 'held-to-maturity' and 'available-for-sale' portfolios as follows:

##### **Held-for-trading**

These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within 90 days. These are carried at market value, with the related gain / (loss) on revaluation being taken to consolidated profit and loss account.

###### *Intra day trading*

The cost of acquisition of 'dealing securities' (i.e. listed securities purchased and sold on the same day) is not considered for calculating the 'moving average cost' of other listed securities (i.e. listed securities sold after the date of purchase).

##### **Held-to-maturity**

These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.

##### **Available-for-sale**

These are investments that do not fall under the held-for-trading or held to maturity categories. Investments are initially recognised at cost being its fair value which includes transaction costs associated with the investment. These are carried at market value except for unlisted securities where market value is not available, which are carried at lower of cost and break-up value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account shown below equity. Provision for diminution in value of investments in respect of unlisted shares is calculated with reference to book value of the same. On derecognition of quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of investments' below equity is included in the consolidated profit and loss account for the period.

The Group amortises the premium / discount on acquisition of government securities using the effective yield method. Provision for diminution in value of investments for unlisted debt securities is calculated as per the SBP's Prudential Regulations. The Group follows the 'Settlement date' accounting for investments.

Gains and losses arising on sale of investments are recognised in the consolidated profit and loss account.

#### **Investment in subsidiary**

Investment in subsidiary are valued at cost less impairment, if any. Gains and losses on disposal of investments is recognised in the consolidated profit and loss account.

### **4.7 Operating fixed assets**

#### **4.6.1 Owned**

Tangible fixed assets are stated at cost less accumulated depreciation and impairment loss, if any. Capital work in progress is stated at cost, and these are transferred to specific assets as and when assets are available for use.

Residual values and useful lives are reviewed at each balance sheet date, and adjusted if impact on depreciation is considered significant.

Depreciation is charged to the consolidated profit and loss account applying the straight-line method whereby the cost of an asset is written off over its estimated service life.

Depreciation on additions in the first half of the month and disposals in the second half of the month is charged for the whole month whereas no depreciation is charged on additions during the second half of the month and disposals in the first half of the month.

Maintenance and normal repairs are charged to consolidated profit and loss account as and when incurred.

Assets are derecognised when no future economic benefit is expected from its use or disposal. Profit or loss on sale or retirement of fixed assets is included in the consolidated profit and loss account.

#### **4.6.2 Leased**

Assets held under finance leases are accounted for by recording the assets and related liabilities at the amounts determined on the basis of lower of fair value of assets and the present value of minimum lease payments. Finance charge is allocated to accounting periods in a manner as to provide a constant rate on the outstanding liability. Depreciation is charged on leased assets on a basis similar to that of owned assets.

#### **4.6.3 Intangible assets**

Intangible assets are stated at cost less accumulated amortisation and impairment losses, if any.

Intangible assets having a finite life are amortised using the straight line method over their estimated useful lives after taking into account the residual value, if any.

Amortisation on additions and deletions of intangible assets during the year is charged in proportion to the period of use.

Amortisation on additions in the first half of the month and disposals in the second half of the month is charged for the whole month whereas no amortisation is charged on additions during the second half of the month and disposals in the first half of the month.

### **4.8 Taxation**

#### **Current**

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account the tax credits and tax rebates available, if any.

#### **Deferred**

The Group accounts for deferred taxation using the balance sheet liability method on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the applicable tax rates. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available and the credits will be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### **4.9 Staff retirement benefits**

#### **Defined benefit plan**

##### **- Gratuity Fund**

The Group operates a funded gratuity scheme for all its permanent employees in accordance with the human resource policy of the Company and terms of employment for managing director and deputy managing director. Contributions towards defined benefit schemes are made on the basis of actuarial advice using the Projected Unit Credit Method.

Actuarial gains or losses are recognised in accordance with the requirements of IAS-19 (Revised).

The last actuarial valuation of the scheme was carried out as at 31 December 2018. The benefit under the gratuity scheme is payable on retirement at the age of 60 or earlier cessation of service, in lump sum.

##### **- Benevolent Fund**

The Group operates a benevolent fund scheme for its employees where equal fixed contributions are being made by employees and the Group.

Employees or their legal heirs are entitled to certain pre-defined benefits on happening of specified events including retirement, incapacitation, marriage and death etc. as per their entitlement. Contributions paid by Company to the fund are included in expenses for the period.

#### **Defined contribution plan**

The Group also operates a recognised provident fund scheme for its permanent employees. Equal monthly contributions are made, both by the Group and the employees, to the fund at a rate of 3.5 and 4 (2016: 3.5 and 4) percent respectively and 10 percent of salary for the managing director and deputy managing director, as applicable. The Group has no further payment obligation once the contributions have been paid. The contributions are recognised as an expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction of the future payments is available.

#### **Compensated absences**

The liability in respect of compensated absences of employees is accounted for in the period in which it is earned in terms of salary earned upto the statement of financial position date.

The Group recognises provision for compensated absences on the basis of actuarial valuation under Projected Unit Credit Method. The last actuarial valuation was carried out as at 31 December 2018.

### **5 Securities under repurchase / resale agreements**

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective yield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Group does not obtain control over the securities. Amounts paid under these agreements are included in lendings. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

#### **4.10 Functional and presentation currency**

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates. These consolidated financial statements are presented in Pakistani Rupee, which is the Group's functional and presentation currency.

#### **4.11 Foreign currencies**

Foreign currency transactions during the year are recorded at the rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistani Rupee at the rates of exchange prevailing on the balance sheet date. Exchange gains and losses are included in the consolidated profit and loss account. Non-monetary items that are measured in terms of historical cost denominated in a foreign currency are translated using the exchange rate at the date of the transaction.

#### **4.12 Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

Provision against identified non-funded losses is recognised when intimated and reasonable certainty exists for the Company to settle the obligation. The provision is charged to the consolidated profit and loss account net of expected recovery and the provision is classified under other liabilities.

Provisions are reviewed at each statement of financial position date and are adjusted to reflect the current best estimate.

#### **4.13 Off-setting of financial assets and financial liabilities**

A financial asset and a financial liability is set off and the net amount reported in the statement of financial position if the Group has a legal right to set off the transaction and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### **4.14 Dividend and reserves**

Dividend declared and appropriations, except for transfer of statutory reserve, made subsequent to the balance sheet date are recognised as liability and recorded as changes in reserves respectively in the period in which these are approved by the directors / shareholders as appropriate.

#### **4.15 Critical accounting estimates and judgments**

The preparation of these consolidated financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows:

- a) Provision for bad and doubtful advances including net investment in lease (note 4.4)
- b) Classification and provisioning of investments (note 4.5 & 4.12)
- c) Depreciation of property and equipment and amortisation of intangible assets (note 4.6)

- d) Assumptions and estimation in recognition of deferred taxation (note 4.7)
- e) Accounting for defined benefit plan and compensated absences (note 4.8)
- f) Impairment (note 4.20)

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

#### 4.16 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses; whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The Group's primary format of reporting is based on its business segments for which individual business strategies are formulated based on Group's overall business strategy and implementation plan.

##### Business segments

Following are the main segments of the Group:

|                                |  |
|--------------------------------|--|
| Corporate & Investment Banking | Includes loans, advances, lease financing, advisory services, mergers and acquisitions and other such corporate and investment banking transactions.   |
| Treasury                       | Undertakes Group's fund management activities through leveraging and investing in liquid assets such as short term placements, government securities and reverse repo activities. It carries out spread based activities in the interbank market and manages the interest rate risk exposure of the Group. |
| Capital Market                 | Undertakes trading and investment primarily in listed securities with an aim to earn trading gains from market fluctuation and to hold securities for dividend income and price appreciation in the form of capital gain.  |
| SME & Retail Banking           | Undertakes SME and Retail Finance activities via bills discounting, business loans against mortgaged property, auto-lease financing and consumer financing.  |

##### Geographical segments

The geographical spread of Group's operations is limited to Pakistan only.

#### 4.17 Borrowing cost

Borrowings are recorded at the proceeds received.

Borrowing costs are recognised as an expense in the period in which these are incurred except where such costs are directly attributable to the acquisition, construction or production of qualifying asset in which case such costs are capitalised as part of the cost of that asset.

#### 4.18 Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

#### 4.19 Deposits and their cost

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective mark-up / interest rate method.

#### 4.20 Impairment

The carrying amounts of the Group's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists the assets' recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognised in consolidated profit and loss account.

#### 4.21 Standards, amendments and interpretations to the published standards that are relevant but not yet effective and not early adopted by the Company

The following new standards, amendments to published standards and interpretations would be effective from the dates mentioned below against the respective standard or interpretation.

- 8.2.4 This represents 50% shareholding in the ordinary shares (Rs.10 each) of KEL, which has been fully provided due to the reasons stated above. The book value represents cost of investment amounting to Rs. 500 million less share of loss on interest in joint venture amounting to Rs. 95.133 million upto 30 June 2012. This investment was designated as strategic investment under the Prudential Regulations for Corporate / Commercial Banking.
- 8.2.5 These are cumulative, convertible, redeemable and non-participatory preference shares carrying dividend at the rate of 17% per annum having face value of Rs.10 each. These are redeemable within four years of the allotment date. If preference shares are not fully redeemed by the issuer in this time period, the remaining part along with the unpaid dividend thereon will be convertible at the option of preference shareholder at par value of Rs.10 into ordinary shares ranking pari passu in all respects with the ordinary shares except for participation in dividend / bonus distribution for the period for which preference share dividend has been paid.
- 8.2.6 The Company established a wholly owned subsidiary named Kamoke Powergen (Private) Limited with a paid-up capital of Rs. 5,000,000 representing 500,000 shares of Rs. 10 each. The Company appointed an SVP grade executive (Mr. Kashif Shabbir) as Chief Executive Officer (CEO) of KPL. KPL has been established as a Special Purpose Vehicle (SPV) to obtain power generation license from NEPRA to increase the saleability of assets of KEL. SBP's approval was obtained for the formation of KPL which was granted vide letter No. BPRD/RPD/27366/16 dated 16 November 2016.
- 8.2.7 It includes an investment in listed term finance certificates (TFC) amounting to Rs. 398.58 million comprising 79,955 units. During last quarter of the year, upon maturity, the issuer informed investors the status of minimum capital requirements and its pending merger with and into another Bank. As a result, issuer could not make the final payment of its markup and entire principal amount. Consequently, an extraordinary meeting of the TFC holders was held on 19 November 2018 wherein the majority of the TFC holders agreed to extend the maturity date of the TFC Issue for a period of one year (27 October 2019) on the existing terms and conditions as the counter party invoked the lock-in clause governed by clause 4.1.1 of the 'Declaration of Trust' to hold the payment till the minimum capital requirement is met. The clause is mandatorily invoked for the time being until proposed merger. This extension was subject to compliance with all applicable laws, rules, regulations and requisite approval; however, such extension has yet to be approved by the SBP.

Management have not provided any impairment on the said TFCs on subjective basis due to above facts, in these consolidated financial statements.

**24.3 Other contingent liabilities**

**24.3.1** In financial year 2014, the Group received the appeal effect orders with respect to the Appellate Tribunal Inland Revenue (ATIR) orders dated 20 February 2013 in relation to tax years 2004, 2005, 2006 and 2008 where the outcome was in favour of the Group in relation to issues of loans and advances written-off, apportionment of expenditure and loans to executives/officers and the resulting refunds were adjusted against the tax liability for the tax years 2009 and 2010. Based on the decision of ATIR, overall resulting relief and brought forward losses, there was 'nil' additional tax liability remaining for tax years 2009 and 2010. In June 2015, the Additional Commissioner Inland Revenue issued orders under section 221/124 of the ITO for the tax years 2003 to 2010 to give the appeal effect of the ATIR order. Upon Group's rectification application, a rectified order was issued which resulted in a refund of Rs.122.777 million in tax year 2010. The Tax department has filed the references before Honorable High Court of Sindh against the order of ATIR.

**24.3.2** For the tax year 2011, Deputy Commissioner Inland Revenue (DCIR) vide order dated 30 August, 2013 passed under section 122(1) read with section 177 of Income Tax Ordinance (ITO) issued the amended assessment order and raised a demand of Rs.84.392 million. The demand mainly pertains to additions made for apportionment of expenses to dividend income/capital gains/(losses), disallowance of interest payable on accrual basis, provision for loans and advances and loss on termination of leased assets etc. The Group filed a refund claim of Rs.70.53 million for the tax year 2011 through a revised tax return. The Group filed an appeal with Commissioner Inland Revenue Appeals on 14 October 2013. The CIR (A) disposed the appeal vide his order No. 22 dated 26 December 2016. In relation to the said appeal, CIR (A) confirmed the treatment of DCIR on certain issues, whilst few matters were decided in favour of the Group. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed in addition to a rectification application on 02 March 2017. The appeal is expected to be fixed for hearing in the year 2019.

For the tax year 2013, the Group received a tax demand of Rs.24.3 million on 11 November 2014 vide order under section 122 (5A) of the ITO. Against this order, rectification application was filed vide letter T-2798/2012 dated 12 December 2014 wherein it has been highlighted that the issue of apportionment of expenditure against dividend income and capital gain has been decided in favour of the Group by ATIR. Also, the Tax department did not consider the payment of tax of Rs.13.47 million. In June 2015, a rectification order under section 221 of the ITO was passed by the Additional Commissioner Inland Revenue to give effect of apportionment of financial charges and tax credits. Consequently the tax department revised its tax demand and reduced it to Rs.13.198 million. The Group filed an appeal with Commissioner Inland Revenue Appeals (CIRA) on 22 December 2014. The CIR (A) disposed the appeal vide his order No. 23 dated 26 December 2016. In relation to the said appeal, the CIR (A) confirmed the treatment of the ACIR on certain issues whilst few matters were decided in favour of the Group. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed in addition to a rectification application on 02 March 2017. The appeal is expected to be fixed for hearing in the year 2019.

For the tax year 2014, the ACIR passed an order wherein he demanded tax of Rs.57.866 million disallowing the provision for non-performing loan and advances, apportionment of financial and administrative expenses against dividend income and capital gain, penalty imposed by the State Bank of Pakistan, treated the expenditure incurred on privately placed TFCs as capital expenditure and charged WWF. The Group filed an appeal with Commissioner Inland Revenue Appeals (CIRA) on 22 November 2016. The CIR (A) disposed the appeal vide his order No. 13 dated 16 January 2017. In relation to the said appeal, the CIR (A) confirmed the treatment of the ACIR on certain issues whilst few matters were decided in favour of the Group. Therefore, an appeal before ATIR to contest the various treatments adopted in the above mentioned order issued by CIR(A) has been filed on 02 March 2017. The appeal is expected to be fixed for hearing in the year 2019.

**24.3.3** No provision has been made in these consolidated financial statements in respect of above mentioned matters as the management is hopeful of a favourable outcome on these matters considering the appellate history and tax advisor's opinion.

**24.3.4** The Group, through its lawyer, has challenged in Sindh High Court (SHC) section 2(g)(V), 5(3), 5(4) and 6(1) of the Sindh Workers Welfare Fund Act, 2014 to be unlawful and void ab initio. The Court as an interim measure passed the order that no coercive action shall be taken against the Group till next date of hearing as suit No 610/2017, in which almost 20 Financial Institutions have filed a Composite Suit challenging the same law, requires hearing. At period end, the outcome was still pending.

**25 DERIVATIVE INSTRUMENTS**

The Group did not enter into any interest rate swaps, forward rate agreements and foreign exchange options during the year.

**39.14 Funding Policy**

The company funds its annual contribution, based on actual valuation, in quarterly instalments during the year.

**39.15** The scheme has various risks associated with it, however, following risks have been considered significant:

|  |   |
|--|---|
| <b>Asset volatility</b>                  | The risk arises when the actual performance of the investments is lower than expectation and thus creating a shortfall in the funding objectives.   |
| <b>Changes in bond yields</b>            | The risk arises when the actual performance of the investments is lower than expectation and thus creating a shortfall in the funding objectives.   |
| <b>Inflation risk</b>                    | The most common type of retirement benefit is one where the benefit is linked with final salary. The risk arises when the actual increases are higher than expectation and impacts the liability accordingly. |
| <b>Life expectancy / Withdrawal rate</b> | The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.   |

## 41.3 Remuneration paid to Shariah Board Members

The company does not have shariah board members, being a conventional financial institution, therefore, there is no remuneration to shariah board.

## 42 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

## 42.1 Fair value of financial assets

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

#### Methodology And Valuation Approach

For the purposes of valuation, valuer carried out inspection and survey of the land, building, plant and machinery. They verified the capacity of the Engines and Alternators from their nameplate rating. The plant is mostly second-hand and the engines have run 50/60,000 hours.

#### Land

The valuer verified the land by examining the land purchase/ ownership documents or copies thereof, apart from physical verification. The valuation of land is based upon prevailing market rates for similar usage without any restrictions for sale, transfers, etc. for large areas and the prevailing market condition at the location. For this purpose the valuer also made inquiries from the local dealers of the area and assessed the value at Rs.42.375 million.

#### Buildings And Civil Works

All civil works were physically inspected to ascertain the type of construction, finishes and present condition. The structures covered are the owned and developed assets on owned land and long leased land holdings. The verification was also made from the architectural drawings and completion drawings as available. The buildings were checked to ascertain the maintenance standard and construction at site in accordance with the drawings. A suitable depreciation factor depending upon the present condition and life of the buildings was applied to arrive at the present assessed value and the assessed value is Rs.179.242 million.

#### Plant And Machinery Including Spares

The machinery at the site (including spares) were physically verified as far as possible, according to their description, specification and location. Purchase invoices were used in order to determine the historical cost.

For the purpose of valuation of plant, machinery and equipment, valuer enquired values of second-hand machinery and checked their own archives, apart from the local market, keeping in view the make, model, capacity & present condition of the plant.

For the imported items computation was based upon exchange rate 1 US\$= Rs. 104.78 and Euro= Rs. 111.81, as on 02.12.2016, the date of valuation which resulted in value of Rs.1,577.306 million.

At year end, the Company performed an impairment review to ascertain that the carrying amount of the power plant does not exceed its recoverable amount; the review was based on a financial model with various assumptions, as the power plant has not started its operations yet.

Further the Company has applied to NEPRA for power generation license as disclosed in note 1.3 which is pending for approval. However, the management of the company is hopeful in obtaining the license and is confident to dispose off power plant even without having a generation license.

Management of the company is in the continuous process of identifying and negotiating with prospective buyers inside and outside the country as the plant deal can be in the money due to rise in prices of new plants and rise of exchange rates.

(1) Executives directors and key management personnel are also entitled to the usage of certain Group assets as per their terms of employment.

(2) In financial year 2017 : Rs. 26.11 million was paid to former Deputy Managing Director (DMD) of the Group, who was relocated to Libya on 31 March 2017, on account of depreciation benefit, transportation cost and tax paid by the Group. The Board subsequently resolved that the said benefits will be recovered from former DMD partly from sale proceeds of the car surrendered by former DMD to the Group and partly from actual payment. The car was disposed off in financial year 2018 against sale proceeds of Rs. 9.11 million in addition to actual cash received amounting to Rs. 11.004 million. The management has been following up for the remaining amount of 5.983 million.

(3) It includes state controlled entities, certain other material risk takers and controllers.

(4) Transactions with owners have been disclosed in "Statement of changes in equity".

(5) Contribution to approved defined benefit plan and defined contribution plan, post employment benefits, are disclosed in note 39 and note 40 respectively to these consolidated financial statements. Employees compensated absences, other long term benefits, are discussed in note 21 to the consolidated financial statements.

(6) Remuneration and short term employee benefits are disclosed in note 34 to the consolidated financial statements.

## 46.1 CAPITAL ASSESSMENT AND ADEQUACY

### 46.1.1 Capital adequacy

SBP's regulatory capital guidelines under Basel III allow for three tiers of capital. Common Equity Tier I capital includes common shares and retained earnings. Pak Libya currently does not hold any instruments in Additional Tier 1 or Tier 2 capital. The authorised share capital of the Group is Rs.8,000 million and the paid-up capital is Rs.6,141.780 million consisting of 614,178 shares with a par value of Rs.10,000 per share.

Group's regulatory capital is divided into three tiers.

- \* Common Equity Tier 1 capital (CET1), which includes fully paid up capital and statutory reserves as per the financial statements and unappropriated loss after all regulatory adjustments applicable on CET1.
- \* There is no amount for Additional Tier 1 Capital (AT1) of the Group.
- \* Tier 2 capital includes revaluation reserves on account of unrealised gain on available-for-sale investments and general provisions for loan losses (up to a maximum of 1.25 % of credit risk weighted assets).

The table below illustrates the following approaches that are adopted at Pak Libya for capital requirements calculation under Basel III in relation to the various risk types under Pillar 1:

|                  |                          |
|------------------|--------------------------|
| Credit Risk      | Standardized Approach    |
| Market Risk      | Standardized Approach    |
| Operational Risk | Basic Indicator Approach |

### Minimum capital requirement

SBP has prescribed that the minimum paid-up capital (free of losses) for DFI is required to be maintained at Rs.6 billion and ratio of total regulatory capital to risk weighted asset is to be maintained at or above 10% alongwith Capital Conservation Buffer (CCB) of 1.9%. The paid-up capital (free of losses) of the Group as of 31 December 2018 amounted to Rs.4.072 billion, which is below the minimum capital requirement of Rs.6 billion. SBP granted exemption to the Group in meeting the MCR till 30 June 2018. The Board of Directors of the Group has approved the financial projections for the next 5 years, envisaging a capital injection plan which is aimed to comply with minimum capital requirement, enhance the risk absorption capacity and future growth and expansion in business prospects of the Group.

### Capital management

A strong capital position is essential to the Group's business strategy and competitive position. The Group's capital strategy focuses on long-term stability, which aims to build and invest in core business activities. The Group seeks to maintain adequate levels of capital in order to:

- comply with the capital requirement set by the regulators of the Group;
- safeguard Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders;
- acquire, develop and maintain a strong capital base to support the development of its business activities;
- support the underlying risks inherited in the core business activities; and
- be able to withstand capital demands under market shocks and stress conditions.

The Group carries out Capital Planning annually to ensure the sufficiency of capital keeping in view the business strategy, expected growth, regulatory requirements, Basel III guidelines and risks associated with the business operations. The capital planning is normally undertaken for the horizon of next three to five years. The plan takes the following into account:

- current capital requirement
- growth of core financing and investment business based on activities plans of the various business units (Corporate & Investment Banking, SME-Retail banking Treasury and Capital Market)
- the funding structure and sources of funding, liabilities and equity to support the asset growth taking into consideration the need to maintain strong liquidity position based on Basel III guidelines
- maintenance of regulatory capital requirements and capital adequacy ratios

The Group has a comprehensive Internal Capital Adequacy Assessment Process (ICAAP). The Group's ICAAP covers the capital management, sets the process for assessment of the adequacy of capital to support current and future activities / risks and a report on the capital projections for a period of three to five years. The ICAAP report is produced on an annual basis and is approved by the Board of Directors.

Under the ICAAP methodology, the following risk types are identified and measured:

- risks covered under Pillar 1 (credit risk, market risk and operational risk)
- risks not fully covered under Pillar 1 (Residual Risk)
- risks covered under Pillar 2 (concentration risk, interest rate risk, liquidity risk, reputational risk, strategic/business risk)

The Group has also implemented Stress Testing Framework as per the SBP guidelines. This involves the use of various techniques to assess the Group's susceptibility to plausible yet extreme stress scenarios. The stress tests cover shocks related to credit risk, interest rate risk, exchange rate risk, equity price risk and liquidity risk. The stress tests are performed quarterly and results are reported to Management and Board of Directors through respective Risk Management Committee.

#### **Scope of applications**

The Basel III Capital Regulations (Basel III) are applicable to Pak Libya Holding Group (Private) Limited (Pak Libya) in line with the guidelines issued by State Bank of Pakistan (SBP).

SBP has issued the framework and guidance regarding implementation of the capital reforms under Basel III - which are effective from 31 December 2013. Accordingly, the Group's Risk Weighted Assets (RWA), total capital and related ratios are calculated under the Basel II and III framework.

Basel-III framework enables a more risk-sensitive regulatory capital calculation along with tightening of capital requirements, raising the quality, consistency and transparency of capital base to promote long term viability of the Group. As the Group carry on the business, it is critical that the Group is able to continuously monitor the exposure across entire organization and aggregate the risks so as to take an integrated approach/view. Maximization of the return on risk-adjusted capital is the principal basis to be used in determining how capital is allocated within the Group to a particular segment of business.

#### **Significant subsidiary**

Pak Libya has wholly owned subsidiary named Kamoke Powergen (Private) Limited incorporated on 07 February 2017. However, the Group does not have significant investment in any insurance entity.

#### 46.5 Risk weighted exposures

The risk-weighted assets are measured by means of hierarchy different risk weights classified according to the nature and reflecting an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential losses.

#### 47. RISK MANAGEMENT

The Group has an independent risk management division and developed risk management framework to continuously manage and mitigate risks emanating from the regular course of its operational and financial activities. The risk management framework and policies of the Group are guided by specific objectives to ensure that comprehensive and adequate risk management policies are established to mitigate salient risk elements in the operational facets of the Group. The Board of Directors provides the strategic direction for effective risk management and ensures that a robust risk management framework is in place including the required human resources, policies, procedures and systems. The Board's Risk Management Committee along with various management committees supports Board of Directors in order to achieve this task. It involves identification, measurement, monitoring and controlling risks with a view to ensure that:

- Adequate capital is available as a buffer;
- Exposures remain within the limits prescribed by the Board of Directors; and
- Risk taking decisions are in line with the policy guidelines, business strategy and objectives set by the Board.

##### Scope of application of Basel III framework

State Bank of Pakistan, through BPRD circular no. 06 dated August 15, 2013, requires Banks/DFIs to report the Capital Adequacy Ratio (CAR) under the Basel III framework with CAR requirements increasing in a transitory manner through 2019.

The Group is exposed to a number of risks, which it manages at different levels.

The main categories of risk associated to / with the Group are as follows:

##### Credit risk

The risk of losses resulting from counterparties' failure to meet all or part of their obligations towards the Group. The Group has adopted Standardized Approach for credit risk reporting under Basel III framework.

The Group has established an appropriate credit risk structure and culture whereby policies are reviewed and revamped to maintain sound credit granting procedures, maintaining appropriate credit administration, measurement, monitoring processes and adequate controls.

Risk management structure facilitates the Credit approval function by its Internal Credit Risk Rating model through which an appropriate risk level of the borrower / counterparty is assessed for credit sanctioning and disbursement.

The Group manages credit risk through:

- Establishment of acceptable risk appetite and tolerance levels;
- Sound procedures, tools and controls for the management of risk assets and credit documentation;
- Target market planning and overall market intelligence; and
- Accurate and detailed information about the borrower, its financial position and operations.

##### Market risk

The risk of losses resulting from the variance in the market value of the Group's assets and liabilities owing to changes in market conditions. The Group has adopted Standardized Approach for market risk reporting under Basel III framework.

Market risk measures and controls are applied at the portfolio level and limits and other controls are applied to particular books and to specific portfolios. Controls and established parameters are applied to prevent any undue risk concentrations in the trading book and include controls on exposure to individual market risk factors and on positions in securities of individual issuers.

The principal market risk in respect to the Group's assets and liability management is primarily associated with the capital market exposure and the maturity and repricing mismatches of its assets and liabilities. The Board is responsible for reviewing and recommending all market risk policies and ensures that sound market risk and effective risk management systems are established and complied with.

##### Operational risk

The risk of losses resulting from deficient or erroneous internal procedures, human or system errors, or external events. The Group has adopted Basic Indicator Approach for operational risk reporting under Basel III framework.

The Group has in place a duly approved operational risk policy, manual, disaster recovery system (DRS) and a business continuity plan (BCP). These are continuously reviewed to strengthen operational controls prevailing in the Group.

Operational risk policy and manual set minimum standards and require all business units to identify and assess risks through loss data collection, Risk Control Self Assessment (RCSA) and key risk indicators (KRIs). The business units are responsible for day-to-day monitoring of operational risks and for limiting losses as a result thereof. The business unit is responsible to report any potential deviation giving rise to operational risk events in the Group.

The Group is in the process of continuously improving its internal controls which aids in strengthening the Operational Risk Management of the Group. In this regards, the Group maintains a detailed internal control over financial reporting (ICFR) documentation.

### Liquidity risk

The risk arising due to failure in raising funds at reasonable cost within the required time duration to finance the Group's operations and meet its liabilities when these become due is categorised as liquidity risk.

The Group's approach to liquidity risk management is to ensure as far as possible that it will always have sufficient liquidity to meet its liabilities when due. The Liquidity Management Policy is formulated keeping in view SBP's guidelines on risk management and Basel III principles on sound liquidity management. The Group has also formulated Liquidity Risk Management policy as per SBP's guidelines. The risk management division uses different tools for identifying, assessing, measuring and controlling liquidity risk and periodically reports to senior management and risk management committees. The Group is also preparing leverage ratio report on quarterly basis for senior management, risk management committees and regulator.

The Basel Committee on Banking Supervision has developed two standards intended for use in liquidity risk supervision: the "Liquidity Coverage Ratio" and "Net Stable Funding Ratio".

The LCR is a regulatory requirement set to ensure that the Group has unencumbered high quality liquid assets to meet its liquidity needs in a 30-calendar-day liquidity stress scenario. The Group monitors and reports its liquidity position under the State Bank of Pakistan (SBP) guidelines on Basel III Liquidity Standards implementation in Pakistan. The LCR became effective on 31 March 2017, with currently no minimum ratio requirement in Pakistan for DFIs, however, the Group ratio stood at 64% on an average during the year 2018 while the ratio stood at 54% as on December 31, 2018.

The Net Stable Funding Ratio is the regulatory metric for assessing the Group's structural funding profile. The NSFR is intended to reduce long-term funding risks by requiring banks/DFIs to maintain a stable funding profile in relation to their on- and off-balance sheet activities. The ratio is defined as the amount of Available Stable Funding (ASF) (the portion of capital and liabilities expected to be a stable source of funding), relative to the amount of Required Stable Funding (RSF) (a function of the liquidity characteristics of various assets held). Banks/DFIs are expected to meet the NSFR requirement of at least 100% on an ongoing basis from December 31, 2017, however, the Group remained above the required level while maintaining the ratio at 95% as on December 31, 2018.

The management is responsible for managing liquidity profile of the Group although strategic management of liquidity has been delegated to Asset & Liability Committee (ALCO). The ALCO of the Group deliberate and recommend liquidity strategy ensuring that appropriate policies and procedures are in place to control and constrain liquidity risk. It is also responsible for ensuring that the Group has adequate information systems for measuring, monitoring, controlling and reporting liquidity risk.

### 47.1 Credit risk

#### Credit risk management objectives and policies

Credit risk refers to the risk of financial loss arising from defaults by counterparties in meeting their obligations. Exposure to credit risks for the Group arises primarily from the lending and investment activities.

Credit exposures include both individual borrowers, corporates and groups of connected counterparties and portfolios in the Group's banking/trading books.

The management of credit risk is governed by credit risk management policies and procedures approved by the Board and management respectively. The procedures and policy guidelines spell out relevant process flow, approval authorities, limits, risks, credit ratings and other matters involved in order to ensure sound credit granting and approving standards in compliance with the Prudential Regulations and Risk Management Guidelines of the State Bank of Pakistan.

Appropriate levels of facilities are approved by the Board of Directors through Policy Guidelines. The Executive Committee (EC) approves facilities of upto the limit defined in Credit Risk Management Policy guidelines based on the internal risk rating of the borrower. The facilities exceeding this limit require approval from the Board of Directors on recommendation of the EC. ALCO / Credit Committee (CC) considers and recommends the said facilities to EC upon identifying key opportunities and risks prevalent in taking requisite exposure towards the borrower / counterparty.

The Group currently uses Standardised Approach for computing capital charge on credit risk weighted assets. Currently, the Group does not employ Credit Risk Mitigation (CRM) approach as there is no hedging (in whole or in part) by a collateral posted by the third party on the behalf of the counterparty.

#### Credit risk rating

Credit risk rating is an important tool in monitoring and controlling credit risk. In order to identify changes in risk profiles at early stages, credits with deteriorating ratings are subject to additional oversight and monitoring.

The Internal Credit Risk Rating System (ICRRS) is intended to reflect the overall risk profile of the borrower / guarantor / counterparty. Risk ratings are assigned according to the perception of risk on a numerical scale, determined within the qualitative and quantitative set of parameters and variables encompassing the risk levels of the borrower / guarantor / counterparty. The Credit scoring in the ICRRS is being conducted by Corporate and Investment Banking Division/ SME & Retail Banking Division which is reviewed by the Risk Management Division on periodic basis and from time to time upon receiving the required information and documents of the credit proposal/obligor for its credit approval.

**Objective of Internal Credit Risk Rating (ICRR)**

Credit ratings are aimed at achieving one or more of the following:

- Internal risk reporting;
- Portfolio management; and
- Setting of credit risk concentration limits.

The Group constantly updates and improves upon its rating system to facilitate prudent lending decisions along with proactive and effective identification and monitoring of potential credit risks emanating from the lending activities of the Group.

The Group also uses and give due weightage to external rating while evaluating the risk. The Group considers external ratings assigned by external credit rating agencies including PACRA and / or JCR-VIS.

\* 1) The impact of changes in foreign exchange rate will not affect profitability of the Group since the exposure is off-balance sheet.

\* 2) Off-balance sheet items include a guarantees issued on behalf of KEL, a joint venture. During the year 2012, a decision was announced by the Honorable Supreme Court of Pakistan (Court), in which all contracts of RPPs were declared to be illegal and void ab initio and as a result of which the guarantee remained inoperative. Consequently, as per the opinion of the legal advisor, there cannot be any exposure of the Group under the same.

#### 47.2.3 Equity position Risk

The risk arising from taking long or short positions, in the trading book, in the equities and all instruments that exhibit market behavior similar to equities. Banks/DFIs are required to disclose their objectives and policies regarding trading in equities.

#### 47.4 Liquidity Risk

Liquidity risk is the potential for loss to an institution arising from either its inability to meet its obligations or to finance its commitments as they fall due without incurring unacceptable cost or losses. In addition, liquidity risk may be a result of a financial institution's inability to unwind or offset underlying risks from assets it currently holds or a situation, which will force the financial institution to sell its assets at a loss as the assets are illiquid or the market is suffering a liquidity crunch.

The Group's approach towards liquidity risk management is to ensure as far as possible that it will always have sufficient liquidity to meet its liabilities when due. The Liquidity Management Policy is formulated keeping in view SBP's guidelines on risk management and Basel III principles on sound liquidity management. The Group has also formulated Liquidity Risk Management policy as per SBP's guidelines. The Risk Management Division uses different tools for identifying, assessing, measuring and controlling liquidity risk and periodically reports to senior management and risk management committees. The Group is also preparing leverage ratio report on quarterly basis for senior management, risk management committees and regulator.

The management is responsible for managing liquidity profile of the Group although strategic management of liquidity has been delegated to Asset & Liability Committee (ALCO). The ALCO of the Group deliberate and recommend liquidity strategy ensuring that appropriate policies and procedures are in place to control and constrain liquidity risk. It is also responsible for ensuring that the Group has adequate information systems for measuring, monitoring, controlling and reporting liquidity risk.

The Group has established a robust liquidity Risk Management framework, which ensures sufficient liquidity, including a cushion of unencumbered, high quality liquid assets to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Group has clearly articulated liquidity risk tolerance level that is appropriate for business strategy and manage liquidity risk within the risk tolerance limit while ensuring that the Group maintains sufficient liquidity. The liquidity management framework provides the Board, Senior Management and other appropriate committees with timely information on the liquidity position of the Group. The Group has also incorporated liquidity costs, benefits and risk in the internal pricing, performance measurement and new product approval process for all significant business activities, thereby aligning the risk taking incentives of individual business lines with the liquidity exposures.

Pak-Libya has two available sources to raise funds for meeting the liquidity requirements to cater the business operations. These funding sources comprises of primary market and secondary market. Under the primary market the corporate or non banking sources are tapped whereas the secondary market source is mainly the banks & financial institutions. Since Pak Libya may raise funds against CoIs, so the reliance of raising funds through Clean borrowing would be based on wholesale funds as well as retail deposits. In order to avoid concentration, Pak Libya continues to explore other funding sources including secured long term borrowings from FIs.

In order to assess liquidity levels for PLHC's needs, the Group uses different parameters that set minimum liquidity buffers for both asset-based liquidity and total liquidity. Pak-Libya believes that in order to reduce liquidity risk, access to reliable funding sources with relatively low liquidity risk is of high importance than volatile sources of fund. The distinction between reliable and volatile sources is based on prudent liquidity planning. Apart from liability side, liquidity risk is also mitigated by maintaining the liquidity on the asset side of the balance sheet which mostly dependent on unencumbered high quality liquid assets.

The Group conducts stress tests on a regular basis for a variety of short term and protracted institution-specific and market wide scenarios to identify sources of potential liquidity strain and to ensure that current exposures remain in accordance with the established liquidity risk tolerance level.

The Asset & Liability Committee is responsible for reviewing and monitoring of Liquidity Position in its meeting on regular basis and communicates its views and recommendations to the respective front office(s) and Executive Committee. Besides, the liquidity aspects are also deliberated in the meetings of Board's/ Management's Risk Management Committee (BRMC & MRMC) on regular basis.

The Group has well-defined Contingency Funding Plan in-place. The objective of the contingency plan is to ensure that when any of the indicators or tools being monitored by ALCO enters into the warning or stress zone, corrective measures/plans would be in place. The monitoring of liquidity position and funding strategies is an ongoing activity, but any change must be noted and reported with respect to unexpected events, economic or market conditions, earnings problems or situations beyond its control causing either a short or long term funding crisis.

The Group's LCR is mainly dependent on the availability of high quality unencumbered government securities along with short term REPOs and clean borrowings to manage liquidity position of the Group. Being DFI, the Group is largely dependent on short term as well as long-term borrowing from financial institutions, which affects LCR position.
