Independent auditors' report on review of condensed interim financial information to the members of Pak-Libya Holding Company (Private) Limited

Introduction

We have reviewed the accompanying condensed interim balance sheet of **Pak-Libya Holding Company (Private) Limited** as at **June 30, 2009** and the related condensed interim profit and loss account, condensed interim statement of cash flows and condensed interim statement of changes in equity for the six-month period then ended and other explanatory notes (herein after referred to as the "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

 Director

PAK-LIBYA HOLDING COMPANY (PRIVATE) LIMITED
NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL INFORMATION
FOR THE SIX MONTHS ENDED JUNE 30, 2009

1 STATUS AND NATURE OF BUSINESS

The company was incorporated in Pakistan as a private limited company on October 14, 1978. It is a joint venture between the Government of Pakistan and Libya. The tenure of the company was thirty years from the date of its establishment. The two contracting parties (i.e. both the governments) extended the tenure for further similar period. The objective of the company inter alia includes the promotion of economic growth of Pakistan through industrial development, to undertake other feasible business and to establish and acquire companies to conduct various businesses as may be decided from time to time. The company is designated as a development financial institution (DFI) under the BPD circular No. 35 dated October 28, 2003 issued by the State Bank of Pakistan. The registered office of the company is located at 5th Floor, Tower C, Finance and Trade Centre, Shahrah-e-Faisal, Karachi, Pakistan.

2 BASIS OF PRESENTATION

These condensed interim financial information has been prepared in condensed form in accordance with the requirements of International Accounting Standard 34, 'Interim Financial Reporting' paragraph 3 of BSD Circular Letter No. 15 dated June 13, 2002 and requirements of BSD Circular Letter No. 2 dated May 12, 2004 of the State Bank of Pakistan (SBP).

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 The accounting policies and methods of computation adopted in the preparation of these condensed interim financial information are same as those applied in preparation of the financial statements of the company for the year ended December 31, 2008.

3.2 Critical accounting estimates and judgments

The preparation of condensed interim financial information in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed interim financial information are as follows:

- a) Critical judgment in classification of investments in accordance with the company's policy.
- b) Assumptions and estimations in recognition of deferred taxation.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

RISK MANAGEMENT

The company has set up objectives and policies to manage risks that arise in connection with financial instruments. The risk management framework and policies of the company are guided by specific objectives to ensure that comprehensive and adequate risk management policies are established to mitigate salient risk elements in operations of the company. The establishment of overall financial risk management objectives is consistent and in tandem with the strategy to create and enhance shareholders' value, whilst guided by a prudent and robust framework of risk management policies. In achieving the objective of maximizing returns to shareholders, the Board takes cognizance of the risk elements that the company is confronted with in its operations. In view of the multi-faceted risks inherent in the financial sector, the company places great emphasis on importance of risk management and has put in place clear and comprehensive risk management mechanisms and strategies to identify, monitor, manage and control the relevant risk factors.

Credit risk

Credit risk refers to the risk of financial loss arising from defaults by counter parties in meeting their obligations. Exposure to credit risks for the company arises primarily from lending activities.

The management of credit risk is governed by credit management policies and procedures set and approved by the Board. The procedures spell out relevant approval authorities, limits, risks, credit ratings and other matters involved in order to ensure sound credit granting standards.

The company is following a prudent and cautious policy. The Credit and Operations divisions are responsible for developing credit policies as well as for monitoring and managing the overall risk. The department responsible for credit processing evaluates the credit worthiness of each borrower and assigns a credit limit. The credit policy of the company takes into account product and sector risk concentrations in order to evaluate degree of diversification in the portfolio. The company concentrates on short-term / long-term financing on a secured self-liquidating basis. The company is also focusing on consumer financing. The company's Risk Management Division regularly reviews and actively manages risk at the portfolio level to ensure that risk characteristics and degree of diversification in terms of credit conform with the company policies.

Out of the total assets of Rs. 14.077 billion, financial assets which were subject to credit risk amounted to Rs. 6.161 billion. The major credit risk in respect of advances is concentrated in sectors such as manufacturing, services and trading. To manage credit risk the company entered into 'Master Repurchase Agreements' with counter parties whereby in case of default all balances are settled on a net basis.

The company has recently devised an internal rating methodology for rating corporate and retail customers. The accounting policies and methods used by the company are in accordance with requirements of Prudential Regulations of the State Bank of Pakistan. A reconciliation of provision against non performing advances has been disclosed in note 5.1.1 of these financial information. The company does not enter into any securitisation activities.

Market risk

Market risk refers to the impact on the company's financial conditions resulting from future adverse price or volatility movements of the assets contained in its portfolio. The principal market risk in respect of the company's assets and liabilities management is primarily associated with the maturity and re-pricing mismatches of its assets and liabilities. The Board is responsible for reviewing and recommending all market risk policies and ensuring that sound market risk and effective risk management systems are established and complied with.

The market risk management framework of the company comprises a series of cut-loss and potential loss limits approved by Asset Liability Committee (ALCO) of the company to ensure that risk-takers do not exceed parameters set by management. Limit management is a control mechanism to ensure that all business activities are conducted in compliance with the limits in the risk management guidelines and policies. Gap analysis on regular basis is conducted as part of mechanism to minimize effect of market risk. These limits are set and reviewed regularly according to number of factors, including market trading liquidity of the instruments and the company's business strategy.

MAN

Equity position risk

Equity position risk refers to the risk arising from taking long or short positions, in the trading book, in the equities and all instruments that exhibit market behavior similar to equities. Trading in equities is managed within the statutory limits and as defined by ALCO. Counter parties limits, as also fixed by the State Bank of Pakistan, are considered to limit risk concentration.

Liquidity risk

Liquidity risk refers to the risk arising due to failure to access funds at reasonable cost to finance the company's operations and meet its liabilities when these fall due.

The management is responsible for company's liquidity performance although strategic management of liquidity has been delegated to ALCO. The ALCO of the company executes liquidity strategy including ensuring that appropriate policies and procedures are established to control and limit liquidity risk. It is also responsible for ensuring that company has adequate information systems for measuring, monitoring, controlling and reporting liquidity risk.

The company seeks to ensure that it has access to funds at reasonable cost even under adverse conditions, by managing its liquidity risk across all class of assets and liabilities in accordance with regulatory guidelines and to take advantage of any lending and investment opportunities as they arise.

Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. As such, operational risk is inherent in the company's business and operational activities. Such risk can potentially result in financial loss to the company.

The monitoring and control of such a risk is done through implementing policies and procedures at operational activities level which serve as a reference guide for operations of all key businesses. These financial policies procedures were designed taking into consideration the individual business activities, the market in which it is operating and any regulatory requirement in force. The management of the company is responsible for formulating an operational risk management framework to ensure that operational risks within the company are properly identified, monitored, managed and reported.

The internal audit function of the company performs regular audits on various operations of the company and monitors key risk exposure areas to ensure that internal control procedures are in place and those procedures are able to mitigate risks associated with operational activities. The company is currently in the process of implementing internal control system (COSO framework) which will additionally aid in strengthening the operational risk management of the company.
